Good Morning Mayor/Liza,

Hope all is well. There is some discussion in the community about a Wawa proposal on Springfield.

Not sure who we should reach out to on this so if you are not the right contact would you mind forwarding these questions to whoever is? We just have a couple of questions on this matter:

- (1) Our understanding is that this is a proposal that the Township has not yet reviewed. Can you please provide the community an overview on what stage in the process this whole thing is sitting? Can you provide residents with an overview of what happens from here - what does the process look like from this point on?
- (2) Why would this proposal be submitted, meaning is there a plan for purchase on the table - or is this just a step a potential buyer goes through to determine whether what they wanted to do with the property is possible before they even move forward with a potential process?
- (3) Is it possible to request modification to the current plans (allowing the store but not the gas station?) for example?
- (4) Can people who live near the Wawa get a 3 year coupon for free donuts? They have the Cream filled eclair kind of thing- its not an eclair - it's just shaped like an eclair and it has that light whipped cream in the middle and the outside is glazed. It's delicious- the closest thing to a perfect donut in my opinion- I always get one when I come back from the shore from fishing in the summer.
- (5) Who should residents reach out to in expressing a position on this issue and to get more information?

-John Migueis
