Dr. Varley / Whitfield:

Just as your approval for your extended leave before your resignation was approved, you posted a unique image and caption on your Facebook page which was shared with me. I have shared the screenshot below, from last week, so everyone can see what you find to be entertaining.

I'm glad your time here has been a joke to you, as you can walk away from the destruction YOU have had a hand in orchestrating. This is such a classless, insensitive, disgraceful, and unprofessional post.

To the entire Board in copy;

I respectfully ask each of you to please reflect upon why you have supported someone who thinks this is even remotely appropriate, let alone funny or admirable?

I cannot help but to feel this might be a reflection where you will now understand, but this 'admission' that she never cared about us as a community, as a district but only about herself and the hundreds of thousands of dollars you approved to pay her.

So, BOE Members, it's time to pull the blinders off, be detailed and diligent in your search for a new Superintendent and find some who IS a class act not someone who tries to act like one.

Melissa Whitfield

I love this picture! She just walks away while everything explodes.
