## **CALL TO ORDER**

### **ADEQUATE NOTICE COMPLIANCE STATEMENT**

*Adequate notice of this meeting has been provided by the City Clerk's Office in the preparation of the Council Annual Meeting Notice, dated December 17, 2025, which was properly distributed and posted per statutory requirements.*

*Please be advised that the FIRE EXITS are to my RIGHT, your left, and at the BACK OF THE ROOM.*

*The City has a Listening System to assist the hearing impaired. If anyone needs hearing assistance, please obtain the system at the Dais and return it thereafter.*

## **ROLL CALL**

### **PLEDGE OF ALLEGIANCE**

#### **EXPLANATORY NOTE REGARDING CLOSED SESSION**

*A closed session meeting, as authorized by State statute, was announced and held prior to the start of this meeting and the known items for discussion were listed on the published Closed Session agenda.*

#### **EXPLANATORY NOTE REGARDING HEARINGS AND COMMENTS**

*Please be advised that council meetings are broadcast live on Comcast Channels 34 and 36 and Verizon Channel 30 and rebroadcast on Thursdays and Saturdays on HTTV on Comcast 36 and Verizon 33.*

*When invited to speak, please come to the lectern, clearly state your name and address, spell your last name, and speak into the podium microphone so that your comments can be understood by all and properly recorded. Whenever an audience or Council member reads from a prepared statement, please give or email a copy to the City Clerk's Office at [cityclerk@cityofsummit.org](mailto:cityclerk@cityofsummit.org). To help facilitate an orderly meeting and to permit all to be heard, please limit your comments to no more than 3 minutes.*

*Unless you are using an electronic device to follow the meeting agenda or need it for professional emergency contact purposes, please turn it off. Thank you.*

(The following matters were known at agenda deadline. Other matters may arise thereafter that need timely consideration or reaction.)

### **APPROVAL OF MINUTES**

- Regular and Closed Session Meetings of June 3, 2026 and June 16, 2026

### **REPORTS**

- Mayor, City Administrator and Council President

**SWEARING-IN:**

**Councilmember - Ward 1**

- Andrew B. Smith, Councilmember - Ward 1 - by Mayor Fagan

**RESOLUTIONS**

*(Staff reports are attached as appropriate. Items are listed according to Council Committees, those in **italics** indicate secondary committee reference. Unless otherwise indicated, or desired by Committee Chair, or a Council member advises that they will be voting in the negative, all Committee resolutions may be voted on at once.)*

**SAFETY & HEALTH**

(ID # 12629)                      Appoint New Fire Chief, Battalion Chief, Lieutenant and Probationary Firefighter *(Pending Closed Session Discussion)*

**SWEARINGS-IN**

**Fire Department**

By Mayor Fagan:

- Fire Chief
- Battalion Chief
- Lieutenant
- Probationary Firefighter

**PRESENTATIONS**

- Recognition of Retiring Fire Chief Eric Evers – Assemblyman Andrew Macurdy
- Teens Tackle Homelessness - Bridges Outreach

**HISTORICAL MINUTE**

- Summit's Role during the War for Independence - Presented by Henry Bassman and James Bennett – American Legion, Lindsey Street Post

**ORDINANCE(S) FOR HEARING**

*Comments are solicited from Council members and the public.*

<u>Number</u>	<u>Title</u>	<u>Introduction Date</u>
---------------	--------------	--------------------------

**ADMINISTRATIVE POLICIES & COMMUNITY SERVICES**

- (ID # 12646) 1. Designate Family Aquatic Center as a Cooling Center Location
- (ID # 12608) 2. Authorize Refunds - Department of Community Programs

### **FINANCE**

- (ID # 12625) 1. Authorize Amend Payroll
- (ID # 12632) 2. Authorize the Cancellation of 2026 Taxes
- (ID # 12355) 3. Authorize Payment of Bills and Payroll - \$5,440,090.68

## **PUBLIC COMMENTS**

*At this point in the meeting Council welcomes comments from any member of the public about issues that are **not** topics on tonight's business agenda. Whenever an audience or Council member reads from a prepared statement, please provide a copy to the City Clerk at [cityclerk@cityofsummit.org](mailto:cityclerk@cityofsummit.org). To help facilitate an orderly meeting and to permit all to be heard, please limit your comments to no more than 3 minutes.*

**COUNCIL MEMBERS' COMMENTS/NEW BUSINESS**

**ADJOURNMENT REGULAR MEETING**

**CLOSED SESSION (IF NEEDED AND AUTHORIZED)**

**EXPLANATORY NOTE REGARDING CORRESPONDENCE, STAFF & LIAISON REPORTS, AND GENERAL INFORMATION ITEMS**

*By end of business on Friday before the meeting, unless otherwise indicated, all items on the agenda are distributed to the Mayor, Council, City Administrator, City Treasurer and City Solicitor. Department Heads and the Press are advised via email that the official agenda is available for review on the City's website. An official "Board" copy is available for public inspection in the City Clerk's Office, the Summit Free Public Library reference desk and on the City's website. Oral reports and delayed distributions are noted as needed. Information that arrives after the agenda is completed and sent to the "distribution list" has only been provided to the Mayor, Council, City Administrator and affected Department Head(s).*

**GENERAL INFORMATION**

*Includes notices, letters copied to the city, ordinances & resolutions from other governing bodies, newsletters and minutes and reports from agencies, boards and commissions. Each item does not appear to require any discussion or action. (Copies of ordinances and resolutions from other governing bodies are not provided, but are available upon request.)*

**Notices:**

1. Millburn Twp - 2756-26 Pending Zoning Ordinance, Public Hearing August 11, 2026
2. Springfield Township - Pending Land Use Ordinance, public hearing on July 14, 2026

**ORDINANCES AND RESOLUTIONS EXPLANATION:**

A governing body of a municipality may formally act through ordinances or resolutions. Ordinances usually encompass legislative acts. Resolutions usually deal with administrative or acts performed according to legal authority, established procedures or instructions from the Common Council.

**Ordinances:**

An act initiated by the Common Council that becomes law. The violation of an ordinance may result in summonses being issued. Generally, an ordinance remains in effect until repealed or modified and may not be amended or modified by a resolution. It requires a public hearing and publications in the town's legal paper before becoming effective. Examples of ordinances are those which deal with changing parking or speed limit requirements, code enforcement, implementing State mandates at the local level and creating boards or commissions.

**Resolutions:**

Any act or regulation that is required to be reduced to writing but may be finally passed at the meeting at which it is introduced. The legal effect of a resolution is the same as an ordinance except summonses cannot be issued for their violation. Generally, life of a resolution is permanent unless there is language to the contrary. Typical resolutions deal with: Opinion expressions; Requests for action to other elected officials or bodies or governmental agency[s]; One-time actions and Routine authorizations such as making appointments and awarding contracts.

City Clerk's Office

**APPOINT NEW FIRE CHIEF, BATTALION CHIEF, LIEUTENANT AND PROBATIONARY  
FIREFIGHTER (PENDING CLOSED SESSION DISCUSSION)**

*Pending Closed Session discussion.*

<b>ORDINANCE #</b>	<b>26-3391</b>
Introduction Date:	6/16/2026
Hearing Date:	7/7/2026
Passage Date:	
Effective Date:	

**REPEAL AND REPLACE CHAPTER 5, FILMING CONTROLS, AND AMEND CHAPTER A, SCHEDULE OF FEES APPENDIX, SECTION A-27, FILMING PERMITS AND SECTION A-28, FILMING PARKING FEES, OF THE GENERAL CODE OF THE CITY OF SUMMIT, COUNTY OF UNION NEW JERSEY (film ready town)**

*Ordinance Summary: The ordinance repeals and replaces Chapter 5, Filming Controls, of the Revised General Ordinances of the City of Summit to comply with the Film Ready New Jersey Requirements. Film Ready is a designation by the New Jersey Motion Picture and Television Commission. A municipality may be certified as Film Ready if, for the purpose of maintaining consistency throughout the State, the municipality agrees to abide by all of the Film Ready program requirements.*

*This Ordinance also amends Chapter A, Schedule of Fees Appendix, section A-27, Filming Permits, and Section A-28 Filming Parking Fees to amend the fees in those sections.*

SECTION 1 That Chapter 5 of the Code, Filming Controls, shall be amended and supplemented as follows:

**§ 5-1. DEFINITIONS.**

As used in this chapter, the following terms shall have the meanings indicated:

FILMING — Shall mean the taking of still or motion pictures for television series, commercial or documentary purposes intended for viewing on television, in theatres or for institutional uses.

- a. The provisions of this chapter shall not be deemed to include the "filming" of news stories within the City of Summit and shall not include filming by Summit's local access television station.
- b. The provisions of Chapter 12 — Parks, Public Areas, Recreation Facilities, 12-1, Rules and Regulations for Use of Public Property shall not apply to filming on public property.

MAJOR MOTION PICTURE Any film which is financed and/or distributed by a major motion picture studio, including but not limited to the following: NBC Universal, including Peacock; Warner Bros. Discovery, including New Line Cinema, HBO, DC Studios and Castle Rock Entertainment; Paramount Pictures, including Miramax, MTV Films, Showtime, Skydance, Dreamworks and Nickelodeon Movies; Walt Disney Studios, including 20th Century Studios, Searchlight Pictures, Hulu and Marvel Studios; Sony Pictures, including Columbia Pictures, Screen Gems and Tristar Pictures; Amazon MGM Studios; Netflix Studios; A24; any film for which the budget is at least \$20,000,000; or any recurrent weekly television series programming.

PRIVATE LANDS AND RESIDENTIAL ZONES — Shall mean any and every piece of property that is not within the jurisdiction and control of the City of Summit and of the Board of Education properties. Use of Library Board and Board of Education property shall first need approval from the respective Board and thereafter the provisions of this section shall apply.

PUBLIC LANDS — Shall mean any and every public street, highway, sidewalk, square, public park or playground or any other public place within the City which is within the jurisdiction and control of the City of Summit, County or Federal government.

**§ 5-2. PERMIT REQUIRED.**

- a. No person or organization shall film or permit filming on public or on private land where such filming involves the use of public property for the operation, placement or temporary storage of vehicles or equipment utilized in such filming, including, but not limited to, any temporary structure, barricade or device intended to restrict or block off pedestrian or vehicular traffic, within the City of Summit without first having obtained a permit from the office of the City Clerk, which permit shall set forth the approved location of such filming and the approved duration of such filming by specific reference to day or dates. Said permit must be readily available for inspection by City officials at all times at the site of the filming.
- b. All permits shall be applied for and obtained from the office of the City Clerk during normal business hours. Applications for such permits shall be in a form approved by the City Clerk. A permit fee in the amount established by this chapter in Section 5-13 herein must be received no less than [48 or 72] hours prior to the start of filming.
- c. Permits requiring street or sidewalk closings shall require the applicant to meet all the insurance coverage requirements, satisfy all code requirements and agreed to all other City Clerk, Community Programs, Community Services, Fire, Health and Police departments and Parking Services requirements.
- d. Serving of food in conjunction with a filming permit requires the processing of an application from the Board of Health which would apply to both outside vendors as well as Summit vendors.
- e. Permit request shall provide alternate dates.

**§ 5-3. ISSUANCE OF PERMITS.**

- a. No permits will be issued by the City Clerk unless applied for at least four (4) business days before the requested shooting date.
- b. No permit shall be issued for filming upon public lands unless the applicant shall provide the City with satisfactory proof of the following and every such permittee shall carry and maintain in force insurance covering its operations written by an insurance company licensed to do business in the State of New Jersey and rated "A-" or better by A.M. Best Rating, providing the following minimum coverage and language:
  1. Proof of insurance coverage as follows:

- i. Proof of General Liability Insurance Coverage in the amount of \$5,000,000.00, in the aggregate per project, which includes the City of Summit as an additional insured and provides coverage to the City for the Hold Harmless and Indemnification obligations set for below.
  - ii. The above shall include Workmen's Compensation, per New Jersey Statutory requirements.
- 2. An agreement, in writing, whereby the applicant agrees to indemnify and save harmless the City of Summit from any and all liability, expense, claim or damages resulting from the use of public lands.
- 3. The issuing insurance or bonding company shall notify the City within thirty (30) days of the cancellation of any of the policies.
- c. The City and its agents and employees shall be indemnified and held harmless from and against all claims and demands, losses and expenses, and the like arising from the permission granted, and shall be named as an additional insured. The following wording must appear on Insurance Certificate:
 

"The Certificate holder is included as an additional insured as respects losses arising solely from the (licensed activity). The (licensee) shall indemnify and hold harmless the City and its agents and employees from and against all claims, damages, losses and expenses, including, but not limited to, attorney fees, arising out of or from the performance of their work, providing that such claims, damages, losses or expenses (1) are attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property, including the loss of use resulting therefrom, and (2) are caused in full or in part by any negligent acts or omission of the (licensee), or any one directly or indirectly employed by them regardless of whether or not it is caused in part by a party indemnified hereunder."
- d. The posting of cash of two thousand (\$2,000.00) dollars or a maintenance bond of two thousand (\$2,000.00) dollars running in favor of the City and protecting and insuring that the location utilized will be left after filming, in a satisfactory condition, free of debris, rubbish and equipment, and that due observance of all City ordinances, laws and regulations will be followed. Within seven (7) days of the completion of the filming the department head in charge of the property on which the filming took place shall advise the City Clerk of the amount of the deposit that may be returned who shall thereafter process the return of the bond, or portion thereof less costs for damage to public property or public expense caused by the filming.
- e. The hiring of off-duty Summit police officer(s), or firefighters and the paying of overtime for Department of Community Services employees for the times indicated on the permit or prescribed by these or any other City departments, if required by the Chief of Police or Fire Chief and as per the agreed-upon Public Safety Plan.
- f. The holder of the permit shall take all reasonable steps to minimize interference with the free passage of pedestrians and traffic over public lands and roadways and shall comply with all lawful directives issued by the Summit Police Department with respect thereto.

**§ 5-4. INTERFERENCE WITH PUBLIC AND PRIVATE ACTIVITY; PARKING.**

- a. The holder of a permit shall conduct filming in such a manner as to minimize the inconvenience or discomfort to adjoining property owners or tenants attributable to such filming and shall, to the extent practicable, abate noise and park vehicles associated with such filming off the public streets.
- b. When parking off public streets is not practical the number of spaces may be limited by the City, availability of parking must be confirmed at least seventy-two (72) hours before commencement of filming and fees shall be as established in Chapter A Schedule of Fees Appendix, Filming - Parking Fees.
- c. When the person in the film or commercial is extremely popular and/or idolized by the general public extra security may be required by the Police Department.
- d. The holder of a permit shall avoid any interference with previously scheduled activities upon public lands and limit, to the extent possible, any interference with normal public activity on such public lands.
- e. The holder of a permit for residential zones shall avoid any interference with previously scheduled activities of neighbors and limit, to the extent possible, any interference with normal neighborhood activity.

**§ 5-5. NOTICE OF FILMING.**

Where the applicant's production activity, by reason of location or otherwise, will directly involve and/or affect any businesses, merchants or residents, these parties shall be given written notice of the filming at least three days prior to the requested shooting date and be informed that objections may be filed with the Municipal Clerk, said objections to form a part of applicant's application and be considered in the review of the same. Proof of service of notification to adjacent owners shall be submitted to the Municipal Clerk within two days of the requested shooting date.

**§ 5-6. FILMING TIMES PERMITTED.**

Filming shall be permitted Monday through Sunday between the hours of 7:00 a.m. and 9:00 p.m. (camera wrap) and 10:00 p.m. (crew wrap) provided that all requests for night scenes shall be approved in the permit to be granted in accordance with Section 5-10 hereof. The set-up, production and breakdown required by all filming shall be included in the hours as set forth herein. Exterior night filming shall be allowed past 10:00 p.m. in accordance with Section 5-10 hereof.

**§ 5-7. REFUSAL TO ISSUE PERMIT.**

The City Clerk may refuse to issue a permit whenever it is determined, on the basis of objective facts and after a review of the application and a report thereon by the Police Department and by other City agencies involved with the proposed filming site, that filming format, subject, location and/or the time set forth in the application would violate any law or ordinance or would unreasonably interfere with the use and enjoyment of adjoining properties, unreasonably impede the free flow of vehicular or pedestrian traffic or otherwise endanger the public's health, safety or welfare.

**§ 5-8. EMPLOYMENT OF POLICE OFFICER AND ELECTRICIAN.**

At the discretion of the Chief of Police, and as per the agreed upon Public Safety Plan, the City reserves the right to require one (1) or more on-site police officers in situations where the proposed production may impede the proper flow of pedestrian and/or vehicular traffic. The cost of said police officer(s) to be borne by the applicant as a cost of production. Where existing electrical power lines are to be utilized by the production, an on-site licensed electrician may be similarly required if the production company does not have a licensed electrician on staff.

**§ 5-9. APPEALS.**

- a. Any person aggrieved by any action of the City Clerk or Chief of Police, in the denial or suspension of a permit, or imposition of other penalty shall have the right of appeal to the City Administrator. The appeal shall be taken by filing with the City Clerk, within ten (10) days after notice of denial or suspension has been mailed to the address on the permit application, a written statement setting forth fully the grounds for appeal. The City Administrator shall conduct a hearing and affirm, modify or reverse the action appealed from.
- b. Any person aggrieved by a decision of the City Administrator may make an appeal to the Common Council of the City of Summit. Such appeal shall be taken by filing with the City Clerk, within ten (10) days after notice of denial or suspension has been made, a written statement setting forth fully the grounds of the appeal, along with a fee of one hundred (\$100.00) dollars. The City Clerk shall set a time and place of hearing for the appeal, at which time the Common Council of the City of Summit shall conduct a hearing and affirm, modify or reverse the decision appealed from.

**§ 5-10. WAIVER OF REQUIREMENTS OF CHAPTER BY COMMON COUNCIL.**

- a. The Film Permit Representative [manager, clerk, etc. as long as it's not an elected official – this person can also be the Film Ready Liaison] may authorize a waiver of any of the requirements, provisions or restrictions of this chapter if the Film Permit Representative determines that a waiver thereof may be granted without endangering the public health, safety and welfare. In determining whether to issue a waiver, the Film Permit Representative shall consider the following factors: Traffic congestion at the location caused by vehicles to be parked on the public street.
- b. Applicant's ability to remove film-related vehicles off the public streets.
- c. When the applicant is requesting restrictions on the use of public streets or public parking during the course of the filming.
- d. Nature of the film shoot itself; e.g. indoors or outdoors; day or night, on public or private lands.
- e. Prior experience of the film company/applicant with the City, if any.

**§ 5-11. COPIES OF PERMIT; INSPECTIONS.**

Copies of the approved permit will be sent to the Community Programs, Community Services, Police and Fire Departments, Board of Health, Parking Services, Summit Downtown Inc. and the Chamber of Commerce before filming takes place, and to the New Jersey Film Commission at njfilm@njeda.gov. The applicant shall permit the Fire Prevention Bureau, Police Traffic Bureau, Code Enforcement or other City inspectors to inspect the site and the equipment to be used. The applicant shall comply with all safety instructions issued by the Fire Prevention Bureau or other City inspectors.

**§ 5-12. REIMBURSEMENT OF CERTAIN COSTS.**

In addition to any other fees or costs mentioned in this chapter, the applicant shall reimburse the City for any lost revenue, such as parking meter revenue, repairs to public property or other revenues that the City was prevented from earning because of filming.

**§ 5-13. FEES.**

The schedules of fees for the issuance of permits authorized by this chapter shall be as established in Chapter A Schedule of Fees Appendix, Filming.

**§ 5-14. VIOLATIONS AND PENALTIES.**

Where the owner of the premises is not the applicant for a permit required by this chapter, both the owner and the applicant shall each be liable for violations hereof. Any person violating this chapter or these rules and regulations, upon conviction thereof, shall be punished by a fine not exceeding one thousand (\$1,000.00) dollars per day or by imprisonment in the County jail for a term not exceeding ninety (90) days, or both. A separate offense shall be deemed committed on each day during or on which a violation occurs or continues.

SECTION 2. That Chapter A, Schedule of Fees Appendix, shall be amended and supplemented as follows:

**§A-27. Filming Permits.**

See also § 5-13.

The schedules of fees for the issuance of permits authorized by Chapter 5 are as follows:

- a. Basic filming permit: \$100
- b. Expedited basic filming permit (less than 4 business days' advance notice): \$250
- c. Daily filming fee payable in addition to the basic filming permit:

Film and television projects with a budget under \$20mm:	\$150.00
Film and television projects with a budget over \$20mm:	\$500.00
Nonprofit applicants filming for educational documentary or public television purposes (no daily rate required):	\$25.00
Student applicants filming for educational documentary or public television purposes (no daily rate required):	None (\$0)
Street Closures	\$5,000 per day

**§ A-28. Filming - Parking Fees.**

See also § 5-4

When parking off public streets is not practical the number of spaces may be limited by the City, availability of parking must be confirmed at least seventy-two (72) hours before commencement of filming and fees

shall be:

- a. Metered spaces in CRBD: \$30/space/day.
- b. Parking facility: \$7/day/vehicle.
- c. Overnight: \$7/day/vehicle.

**SECTION 3. SEVERABILITY.** If any paragraph, section, subsection, sentence, sentence clause, phrase or portion of this Ordinance is for any reason held invalid or unconstitutional by any Court or administrative agency of competent jurisdiction, such portion shall be deemed a separate, distinct and independent provision of such holding shall not affect the validity of the remaining paragraphs or sections hereof.

**SECTION 4. INCONSISTENCY.** All ordinances or parts of Ordinances inconsistent with this Ordinance are hereby repealed to the extent of such inconsistency.

**SECTION 5. EFFECTIVE DATE.** This Ordinance shall take effect upon final passage and publication according to law.

Dated:

I, Rosalia M. Licatase, City Clerk of the City of Summit, do hereby certify that the foregoing ordinance was duly passed by the Common Council of said City at regular meeting held on

Approved:

Dr. Elizabeth Fagan, Mayor

City Clerk

TO: Mayor and Common Council  
FROM: Aaron Schrager, Director - Division of Engineering & Public Works  
DATE: June 17, 2026

**SUMMARY**

In January, the State adopted new stormwater regulations that the City was required to revise the City's Revised General Ordinances as it pertained to stormwater management rules for major developments within the City.

Though the Governor recently extended the legacy period for these rules to be adopted from July 20, 2026 to July 20, 2027, this version also includes prior revisions that we were waiting to adopt and therefore the City should proceed with adoption of this ordinance at this time. Should the rules be altered during this new legacy period, an additional revision to this ordinance can be made at that time.

At this time, the revised ordinance should be introduced for a hearing that will be held at the July 7, 2028 Council Meeting, with the hearing to take place at the July 28, 2026 Council Meeting.

<b>ORDINANCE #</b>	<b>(ID # 12628)</b>
Introduction Date:	7/7/2026
Hearing Date:	7/28/2026
Passage Date:	
Effective Date:	

**AN ORDINANCE OF THE CITY OF SUMMIT IN THE COUNTY OF UNION, NEW JERSEY ADOPTING NEW STORMWATER MANAGEMENT REGULATIONS PURSUANT TO N.J.A.C. 7:8 AND REPEALING AND REPLACING SECTION 26-1, STORMWATER MANAGEMENT, OF CHAPTER 26, STORMWATER MANAGEMENT REGULATIONS, OF THE REVISED GENERAL ORDINANCES OF THE CITY OF SUMMIT**

*Ordinance Summary: This ordinance repeals and replaces Chapter 26, Stormwater Management Regulations, Section 26-1, Stormwater Management, of the Revised General Ordinances of the City of Summit, to reflect amendments to the Stormwater Management Rules promulgated by the New Jersey Department of Environmental Protection and codified at N.J.A.C. 7-8.*

WHEREAS, on January 20, 2026, the New Jersey State Department of Environmental Protection (“NJDEP”) adopted amendments to the Stormwater Management Rules , N.J.A.C. 7:8; and

WHEREAS, the City of Summit’s stormwater management regulations must be revised to conform with the NJDEP’s amended rules; and

WHEREAS, in January 2026, the NJDEP also published a Model Stormwater Control Ordinance for Municipalities; and

WHEREAS, the NJDEP provided an initial period for conformance to these regulations until July 20, 2026, which has since been extended until July 20, 2027; and

WHEREAS, the Common Council wishes to adopt a customized version of the NJDEP’s January 2026 Model Stormwater Control Ordinance at this time, incorporating previous alterations required by NJDEP and Union County, to ensure the City’s compliance with the new Stormwater Management Rules.

NOW THEREFORE, BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF SUMMIT, IN UNION COUNTY, NEW JERSEY AS FOLLOWS:

Section 1. Section 26-1, “Stormwater Management,” of Chapter 26, “Stormwater Management Regulations” is hereby repealed in its entirety and replaced with a new Section 26-1, “Stormwater Management,” which shall read as follows:

**§26-1 STORMWATER MANAGEMENT**

§26-1.1.. **Scope and Purpose:**

A. Policy Statement

Flood control, groundwater recharge, and pollutant reduction shall be achieved through the use of stormwater management measures, including green infrastructure Best Management Practices (GI BMPs) and nonstructural stormwater management strategies. GI BMPs and low impact development (LID) should be utilized to meet the goal of maintaining natural hydrology to reduce stormwater runoff volume, reduce erosion, encourage infiltration and groundwater recharge, and reduce pollution. GI BMPs and LID should be developed based upon physical site conditions and the origin, nature and the anticipated quantity, or amount, of potential pollutants. Multiple stormwater management BMPs may be necessary to achieve the established performance standards for water quality, quantity, and groundwater recharge.

B. Purpose

The purpose of this ordinance is to establish minimum stormwater management requirements and controls for “major development,” as defined below in Section 26-1.2.

C. Applicability

1. This ordinance shall be applicable to the following major developments:
  - i. Non-residential major developments; and
  - ii. Aspects of residential major developments that are not pre-empted by the Residential Site Improvement Standards at N.J.A.C. 5:21.
2. This ordinance shall also be applicable to all major developments undertaken by the City of Summit.
3. A complete application required by ordinance pursuant to C.1 and the Municipal Land Use Law at N.J.S.A. 40:55D-10.5 and above that has been submitted prior to August 17, 2026 shall be subject to the stormwater management requirements in effect on the date the complete application was received.
4. Notwithstanding 5 below or any rule to the contrary, major developments for any public roadway or railroad project conducted by a public transportation entity that has determined a preferred alternative or reached an equivalent milestone shall be subject to the requirements of this ordinance as follows:
  - i. A major development that reached a preferred alternative or equivalent milestone prior to March 2, 2021, is subject to the requirements of this ordinance in effect on March 1, 2021; and
  - ii. A major development that reached a preferred alternative or equivalent milestone on or after March 2, 2021, is subject to the requirements of this ordinance in effect on the date the preferred alternative or equivalent milestone is reached.

5. Should a public transportation entity initiate a substantial change to a major development that had previously reached a preferred alternative or equivalent milestone, the major development shall instead be subject to the requirements of this ordinance in effect when the amended milestone is reached.
  6. Applicability of this ordinance to major developments shall comply with last amended N.J.A.C. 7:8-1.6, incorporated herein by reference.
- D. Maintenance Requirement Applicability to the Stormwater Management Measures Prior Constructed Stormwater Management Measures

Under the authorization by the conditions in Part V.F.4.a of municipality's Tier A Municipal Stormwater General Permit, the maintenance requirement in subsection 26-1.10 B.6 through 9 shall be also applicable to stormwater management measures constructed after February 7, 1984.

- E. Compatibility with Other Permit and Ordinance Requirements Development approvals issued pursuant to this ordinance are to be considered an integral part of development approvals and do not relieve the applicant of the responsibility to secure required permits or approvals for activities regulated by any other applicable code, rule, act, or ordinance. In their interpretation and application, the provisions of this ordinance shall be held to be the minimum requirements for the promotion of the public health, safety, and general welfare.

This ordinance is not intended to interfere with, abrogate, or annul any other ordinances, rule or regulation, statute, or other provision of law except that, where any provision of this ordinance imposes restrictions different from those imposed by any other ordinance, rule or regulation, or other provision of law, the more restrictive provisions or higher standards shall control.

## §26-1.2 Definitions

For the purpose of this ordinance, the following terms, phrases, words and their derivations shall have the meanings stated herein unless their use in the text of this ordinance clearly demonstrates a different meaning. When not inconsistent with the context, words used in the present tense include the future, words used in the plural number include the singular number, and words used in the singular number include the plural number. The word "shall" is always mandatory and not merely directory. The definitions below are the same as or based on the corresponding definitions in the Stormwater Management Rules at N.J.A.C. 7:8-1.2.

**CAFRA Centers, Cores or Nodes** - Those areas with boundaries incorporated by reference or revised by the Department in accordance with N.J.A.C. 7:7-13.16.

**CAFRA Planning Map** - The map used by the Department to identify the location of Coastal Planning Areas, CAFRA centers, CAFRA cores, and CAFRA nodes. The CAFRA Planning Map is available on the Department's Geographic Information System (GIS).

**Community basin** - An infiltration system, sand filter designed to infiltrate, standard constructed wetland, or wet pond, established in accordance with N.J.A.C. 7:8-4.2(c)14, that is designed and constructed in accordance with the New Jersey Stormwater Best Management Practices Manual, or an alternate design, approved in accordance with N.J.A.C. 7:8-5.2(g), for an infiltration system, sand filter designed to infiltrate, standard constructed wetland, or wet pond and that complies with the requirements of this ordinance.

**Compaction** - The increase in soil bulk density.

**Contributory drainage area** - The area from which stormwater runoff drains to a stormwater management measure, not including the area of the stormwater management measure itself.

**Core** - A pedestrian-oriented area of commercial and civic uses serving the surrounding municipality, generally including housing and access to public transportation.

**County review agency** - An agency designated by the Board of County Commissioners to review municipal stormwater management plans and implementing ordinance(s). The county review agency may either be:

1. A county planning agency or
2. A county water resource association created pursuant to N.J.S.A 58:16A-55.5, if the ordinance or resolution delegates authority to approve, conditionally approve, or disapprove municipal stormwater management plans and implementing ordinances.

**Department** - The Department of Environmental Protection.

**Designated Center** - A State Development and Redevelopment Plan Center as designated by the State Planning Commission such as urban, regional, town, village, or hamlet.

**Design engineer** - A person professionally qualified and duly licensed in New Jersey to perform engineering services that may include, but not necessarily be limited to, development of project requirements, creation and development of project design and preparation of drawings and specifications.

**Development** - The division of a parcel of land into two or more parcels, the construction, reconstruction, conversion, structural alteration, relocation or enlarge-enlargement of any building or structure, any mining excavation or landfill, and any use or change in the use of any building or other structure, or land or extension of use of land, for which permission is required under the Municipal Land Use Law, N.J.S.A. 40:55D-1 *et seq.*

In the case of development of agricultural land, development means: any activity that requires a State permit, any activity reviewed by the County Agricultural Board (CAB) and the State Agricultural Development Committee (SADC), and municipal review of any activity not exempted by the Right to Farm Act, N.J.S.A 4:1C-1 et seq.

**Disturbance** - The placement or reconstruction of impervious surface or motor vehicle surface, or exposure and/or movement of soil or bedrock or clearing, cutting, or removing of vegetation. The following maintenance activities are not considered disturbance for the purposes of this ordinance:

1. Milling, repaving or resurfacing pavement; patching broken pavement; sealing or filling roadway cracks or joints; repairing damaged concrete pavement joints; driveway repair; bridge or pipe/culvert patching; and bridge deck overlays;
2. Repair or replacement of: median barriers; sidewalks (including installation of ramps pursuant to Americans with Disabilities Act on existing impervious surface); concrete curbs; inlets, manholes and catch basins; conduit outlet protection; and guiderail systems, including rails, posts, impact attenuators, and non-vegetated treatment surfaces consisting solely of permeable material;
3. Repair or replacement of traffic, utility and ITS structures on poles including sign structures such as traffic signs, dynamic variable message signs, cameras, radios, traffic signal equipment and their supporting cabinets;
4. Repair or replacement of rail ties or sleepers; regrading track bed; resurfacing or re-installing rail; repairing or replacing lineside signaling systems; and staging maintenance-of-way equipment on or adjacent to track;
5. Geotechnical and archeological investigation activities; installation of one or more monitoring wells; construction of a gauge, weir, or similar device; and
6. Removal of accumulated sediment and debris from a channel.

**Drainage area** - A geographic area within which stormwater, sediments, or dissolved materials drain to a particular receiving waterbody or to a particular point along a receiving waterbody.

**Environmentally constrained area** - The following areas where the physical alteration of the land is in some way restricted, either through regulation, easement, deed restriction or ownership such as wetlands, floodplains, threatened and endangered species sites or designated habitats, and parks and preserves. Habitats of endangered or threatened species are identified using the Department's Landscape Project as approved by the Department's Endangered and Nongame Species Program.

**Environmentally critical area** - An area or feature which is of significant environmental value, including but not limited to: stream corridors, natural heritage priority sites, habitats of endangered or threatened species, large areas of contiguous open space or upland forest, steep slopes, and well head protection and groundwater recharge areas. Habitats of endangered or threatened species are identified using the Department's Landscape Project as approved by the Department's Endangered and Nongame Species Program.

**Empowerment Neighborhoods** - Neighborhoods designated by the Urban Coordinating Council “in consultation and conjunction with” the New Jersey Redevelopment Authority pursuant to N.J.S.A 55:19-69.

**Erosion** - The detachment and movement of soil or rock fragments by water, wind, ice, or gravity.

**Green infrastructure** - A stormwater management measure that manages stormwater close to its source by:

1. Treating stormwater runoff through infiltration into subsoil;
2. Treating stormwater runoff through filtration by vegetation or soil; or
3. Storing stormwater runoff for reuse.

**HUC 14 or hydrologic unit code 14** - An area within which water drains to a particular receiving surface water body, also known as a subwatershed, which is identified by a 14-digit hydrologic unit boundary designation, delineated within New Jersey by the United States Geological Survey.

**Impervious surface** - A surface that has been covered with a layer of material so that it is highly resistant to infiltration by water.

**Independent State authority** - A public authority, board, commission, corporation, or other agency or instrumentality of the State allocated, in but not of, a principal department of State government pursuant to Article V, Section IV, paragraph 1 of the New Jersey Constitution, or which is not subject to supervision or control by the department in which it is allocated, and a regional authority, but shall not include a college or university.

**Infiltration** - The process by which water seeps into the soil from precipitation.

**Lead planning agency** - One or more public entities having stormwater management planning authority designated by the regional stormwater management planning committee pursuant to N.J.A.C. 7:8-3.2, that serves as the primary representative of the committee.

**Major development** - An individual “development,” as well as multiple developments that individually or collectively result in:

1. The disturbance of one or more acres of land since February 2, 2004;
2. The creation of one-quarter acre or more of “regulated impervious surface” since February 2, 2004;
3. The creation of one-quarter acre or more of “regulated motor vehicle surface” since March 2, 2021
4. The reconstruction of one-quarter acre or more of “motor vehicle surface” or “impervious surface” since August 17, 2026; or
5. A combination of 2, 3, and 4 above that totals an area of one-quarter acre or more. The same surface shall not be counted twice when determining if the combination area equals one-quarter acre or more.

Major development includes all developments that are part of a common plan of development or sale (for example, phased residential development) that collectively or individually meet any one or more of paragraphs 1, 2, 3, 4, or 5 above. Projects undertaken by any government agency that otherwise meet the definition of “major development” but which do not require approval pursuant to the Municipal Land Use Law, N.J.S.A. 40:55D-1 et seq., are also considered “major development.”

**Motor vehicle** - Land vehicles propelled other than by muscular power, such as automobiles, motorcycles, autocycles, and low speed vehicles. For the purposes of this definition, motor vehicle does not include farm equipment, snowmobiles, all-terrain vehicles, motorized wheelchairs, go-carts, gas buggies, golf carts, ski-slope grooming machines, or vehicles that run only on rails or tracks.

**Motor vehicle surface** - Any pervious or impervious surface that is intended to be used by “motor vehicles” and/or aircraft, and is directly exposed to precipitation including, but not limited to, driveways, parking areas, parking garages, roads, race-tracks, and runways.

**Municipality** - Any city, borough, town, township, or village.

**New Jersey Stormwater Best Management Practices (BMP) Manual or BMP Manual** - The manual maintained by the Department providing, in part, design specifications, removal rates, calculation methods, and soil testing procedures approved by the Department as being capable of contributing to the achievement of the stormwater management standards specified in this ordinance. The BMP Manual is periodically amended by the Department as necessary to provide design specifications on additional best management practices and new information on already included practices reflecting the best available current information regarding the particular practice and the Department’s determination as to the ability of that best management practice to contribute to compliance with the standards contained in this ordinance. Alternative stormwater management measures, removal rates, or calculation methods may be utilized, subject to any limitations specified in this ordinance, provided the design engineer demonstrates to the municipality, in accordance with Section IV.G. of this ordinance and N.J.A.C. 7:8-5.2(g), that the proposed measure and its design will contribute to achievement of the design and performance standards established by this ordinance.

**New public roadway or railroad** - The construction of a new public roadway or railroad where none currently or previously existed, such as a new bypass. This definition excludes the relocation or reinstating of a public roadway or railroad at a location where one previously existed within a right-of-way and excludes the construction of any widening, improvements and attendant features to an existing public roadway or railroad, such as new ramps, additional lanes/dualization, connection of gaps in existing mainlines, or connection of movements within and existing interchange.

**Node** - An area designated by the State Planning Commission concentrating facilities and activities which are not organized in a compact form.

**Nutrient** - A chemical element or compound, such as nitrogen or phosphorus, which is essential to and promotes the development of organisms.

**Person** - Any individual, corporation, company, partnership, firm, association, political subdivision of this State and any state, interstate or Federal agency.

**Pollutant** - Any dredged spoil, solid waste, incinerator residue, filter backwash, sewage, garbage, refuse, oil, grease, sewage sludge, munitions, chemical wastes, biological materials, medical wastes, radioactive substance (except those regulated under the Atomic Energy Act of 1954, as amended (42 U.S.C. §§ 2011 *et seq.*)), thermal waste, wrecked or discarded equipment, rock, sand, cellar dirt, industrial, municipal, agricultural, and construction waste or runoff, or other residue discharged directly or indirectly to the land, ground waters or surface waters of the State, or to a domestic treatment works. "Pollutant" includes both hazardous and nonhazardous pollutants.

**Public roadway or railroad** - A pathway for use by motor vehicles or trains that is intended for public use and is constructed by, or on behalf of, a public transportation entity. A public roadway or railroad does not include a roadway or railroad constructed as part of a private development, regardless of whether the roadway or railroad is ultimately to be dedicated to and/or maintained by a governmental entity.

**Public roadway or railroad project limits** - The segment of public roadway or railroad that is proposed to be constructed or improved, and including the right-of-way associated with the that segment of public roadway or railroad.

**Public transportation entity** - A Federal, State, interstate, county, or municipal government, an independent State authority, or a statutorily authorized public-private partnership program pursuant to P.L. 2018, c. 90 (N.J.S.A. 40A:11-52 *et seq.*), that performs a public roadway or railroad project that includes new construction, expansion, reconstruction, or improvement of a public roadway or railroad.

**Recharge** - The amount of water from precipitation that infiltrates into the ground and is not evapotranspired.

**Reconstruction** - The replacement, rebuilding, or restoration of a lawfully existing structure.

**Regulated impervious surface** - Any of the following, alone or in combination:

1. A net increase of impervious surface;
2. The total area of impervious surface collected by a new stormwater conveyance system (for the purpose of this definition, a "new stormwater conveyance system" is a stormwater conveyance system that is constructed where one did not exist immediately prior to its construction or an existing system for which a new discharge location is created);

3. The total area of impervious surface proposed to be newly collected by an existing stormwater conveyance system; and/or
4. The total area of impervious surface collected by an existing stormwater conveyance system where the capacity of that conveyance system is increased.

**Regulated motor vehicle surface** - Any of the following, alone or in combination:

1. The total area of motor vehicle surface that is currently receiving water;
2. A net increase in motor vehicle surface; and/or  
quality treatment either by vegetation or soil, by an existing stormwater management measure, or by treatment at a wastewater treatment plant, where the water quality treatment will be modified or removed.

**Retention** - Retaining the stormwater runoff generated from development by infiltration, evapotranspiration, or reuse of stormwater runoff without the discharge of the stormwater runoff directly or indirectly to surface waters or to a treatment works.

**Sediment** - Solid material, mineral or organic, that is in suspension, is being transported, or has been moved from its site of origin by air, water or gravity as a product of erosion.

**Site** - The lot or lots upon which a major development is to occur or has occurred.

**Soil** - All unconsolidated mineral and organic material of any origin.

**State Development and Redevelopment Plan Metropolitan Planning Area (PA1)** - An area delineated on the State Plan Policy Map and adopted by the State Planning Commission that is intended to be the focus for much of the State's future redevelopment and revitalization efforts.

**State Plan Policy Map** - The geographic application of the State Development and Redevelopment Plan's goals and statewide policies, and the official map of these goals and policies.

**Stormwater** - Water resulting from precipitation (including rain and snow) that runs off the land's surface, is transmitted to the subsurface, or is captured by separate storm sewers or other sewage or drainage facilities, or conveyed by snow removal equipment.

**Stormwater management BMP** - An excavation or embankment and related areas designed to retain stormwater runoff. A stormwater management BMP may either be normally dry (that is, a detention basin or infiltration system), retain water in a permanent pool (a retention basin), or be planted mainly with wetland vegetation (most constructed stormwater wetlands).

**Stormwater management measure** - Any practice, technology, process, program, or other method intended to control or reduce stormwater runoff and associated pollutants, or to induce or control the infiltration or groundwater recharge of stormwater or to eliminate illicit or illegal non-stormwater discharges into stormwater conveyances.

**Stormwater runoff** - Water flow on the surface of the ground or in storm sewers, resulting from precipitation.

**Stormwater management planning agency** - A public body authorized by legislation to prepare stormwater management plans.

**Stormwater management planning area** - The geographic area for which a stormwater management planning agency is authorized to prepare stormwater management plans, or a specific portion of that area identified in a stormwater management plan prepared by that agency.

**Tidal Flood Hazard Area** - A flood hazard area in which the flood elevation resulting from the two-, 10-, or 100-year storm, as applicable, is governed by tidal flooding from the Atlantic Ocean. Flooding in a tidal flood hazard area may be contributed to, or influenced by, stormwater runoff from inland areas, but the depth of flooding generated by the tidal rise and fall of the Atlantic Ocean is greater than flooding from any fluvial sources. In some situations, depending upon the extent of the storm surge from a particular storm event, a flood hazard area may be tidal in the 100-year storm, but fluvial in more frequent storm events.

**Urban Coordinating Council Empowerment Neighborhood** - A neighborhood given priority access to State resources through the New Jersey Redevelopment Authority.

**Urban Enterprise Zones** - A zone designated by the New Jersey Enterprise Zone Authority pursuant to the New Jersey Urban Enterprise Zones Act, N.J.S.A. 52:27H-60 et. seq.

**Urban Redevelopment Area** - Previously developed portions of areas:

1. Delineated on the State Plan Policy Map (SPPM) as the Metropolitan Planning Area (PA1), Designated Centers, Cores or Nodes;
2. Designated as CAFRA Centers, Cores or Nodes;
3. Designated as Urban Enterprise Zones; and
4. Designated as Urban Coordinating Council Empowerment Neighborhoods.

**Water control structure** - A structure within, or adjacent to, water, which intentionally or coincidentally alters the hydraulic capacity, the flood elevation resulting from the two-, 10-, or 100-year storm, flood hazard area limit, and/or floodway limit of the water. Examples of a water control structure may include a bridge, culvert, dam, embankment, ford (if above grade), retaining wall, and weir.

**Waters of the State** - The ocean and its estuaries, all springs, streams, wetlands, and bodies of surface or groundwater, whether natural or artificial, within the boundaries of the State of New Jersey or subject to its jurisdiction.

**Wetlands or wetland** - An area that is inundated or saturated by surface water or ground water at a frequency and duration sufficient to support, and that under normal circumstances does support, a prevalence of vegetation typically adapted for life in saturated soil conditions, commonly known as hydrophytic vegetation.

### **§26-1.3 Design and Performance Standards for Stormwater Management Measures**

- A. Stormwater management measures for major development shall be designed to provide erosion control, groundwater recharge, stormwater runoff quantity control, and stormwater runoff quality treatment as follows:
  - 1. The minimum standards for erosion control are those established under the Soil and Sediment Control Act, N.J.S.A. 4:24-39 et seq., and implementing rules at N.J.A.C. 2:90.
  - 2. The minimum standards for groundwater recharge, stormwater quality, and stormwater runoff quantity shall be met by incorporating green infrastructure.
- B. The standards in this ordinance apply only to new major development and are intended to minimize the impact of stormwater runoff on water quality and water quantity in receiving water bodies and maintain groundwater recharge. The standards do not apply to new major development to the extent that alternative design and performance standards are applicable under a regional stormwater management plan or Water Quality Management Plan adopted in accordance with Department rules.

*Note: Alternative standards shall provide at least as much protection from stormwater-related loss of groundwater recharge, stormwater quantity and water quality impacts of major development projects as would be provided under the standards in N.J.A.C. 7:8-5 or Sections IV through VI of this ordinance.*

### **§26-1.4. Stormwater Management Requirements for Major Development**

- A. The development shall incorporate a maintenance plan for the stormwater management measures incorporated into the design of a major development in accordance with subsection 26-1.10.
- B. Stormwater management measures shall avoid adverse impacts of concentrated flow on habitat for threatened and endangered species as documented in the Department's Landscape Project or Natural Heritage Database established under N.J.S.A. 13:1B-15.147 through 15.150, particularly *Helonias bullata* (swamp pink) and/or *Clemmys muhlenbergi* (bog turtle).
- C. The following development projects are exempt from the groundwater recharge, stormwater runoff quality, and stormwater runoff quantity requirements at subsection 26-1.4 P, Q, and R, respectively, provided that any vegetated areas temporarily disturbed to conduct the project are, to the maximum extent practicable, revegetated with native, noninvasive vegetation upon completion of the project:

1. The construction, reconstruction, or repair of an underground utility line or cable, or its supporting infrastructure, such as conduit, junction boxes, and manholes;
  2. The construction, reconstruction, or repair of an aboveground utility line or cable, or its supporting infrastructure, such as poles and towers;
  3. The construction, reconstruction, or repair of a public pedestrian access, such as a sidewalk or trail with a maximum width of 14 feet, provided that the access is made of permeable material;
  4. The maintenance of a dam; and
  5. Public safety improvements undertaken by the municipality or another public transportation entity as set forth in this paragraph:
    - i. Installation of guiderail systems, such as rails, posts, impact attenuators, and non- vegetated treatment surfaces, provided that any pavement utilized consists solely of permeable material;
    - ii. Installation of traffic, utility and ITS structures on poles including sign structures such as traffic signs, dynamic variable message signs, cameras, radios, traffic signal equipment and their supporting cabinets;
    - iii. Installation of railroad lineside signaling systems; and
    - iv. Rockfall mitigation activities that do not result in a net increase of regulated motor vehicle surface or impervious surface.
- D. A waiver from strict compliance from the green infrastructure, groundwater recharge, stormwater runoff quality, and stormwater runoff quantity requirements of subsection 26-1.4.O, P, Q and R may be obtained for the enlargement of an existing public roadway or railroad; or the construction or enlargement of a public pedestrian access, provided that the conditions at subsection 26-1.4 D.1, 2, 3, and 4 below are met. The construction of a new public roadway or railroad is not eligible for a waiver pursuant to this subsection.
1. The applicant demonstrates that there is a public need for the project that cannot be accomplished by any other means;
  2. The applicant demonstrates through an alternatives analysis, that through the use of stormwater management measures, the option selected complies with the requirements of subsections 26-1.4 O, P, Q and R to the maximum extent practicable;
  3. The applicant demonstrates that, in order to meet the requirements of subsection 26-1.4 O, P, Q and R, existing structures currently in use, such as homes and buildings, would need to be condemned; and
  4. The applicant demonstrates that it does not own or have other rights to areas, including the potential to obtain through condemnation lands not falling under 26-1.4 D.3 above within the upstream drainage area of the receiving stream, that would provide additional opportunities to mitigate the requirements of Sections IV.O, P, Q and R that were not achievable onsite.

E. Tables 1 through 3 below summarize the ability of stormwater best management practices identified and described in the New Jersey Stormwater Best Management Practices Manual to satisfy the green infrastructure, groundwater recharge, stormwater runoff quality and stormwater runoff quantity standards specified in subsection 26-1.4 O, P, Q and R. When designed in accordance with the most current version of the New Jersey Stormwater Best Management Practices Manual, the stormwater management measures found at N.J.A.C. 7:8-5.2 (f) Tables 5-1, 5-2 and 5-3 and listed below in Tables 1, 2 and 3 are presumed to be capable of providing stormwater controls for the design and performance standards as outlined in the tables below. Upon amendments of the New Jersey Stormwater Best Management Practices to reflect additions or deletions of BMPs meeting these standards, or changes in the presumed performance of BMPs designed in accordance with the New Jersey Stormwater BMP Manual, the Department shall publish in the New Jersey Registers a notice of administrative change revising the applicable table. The most current version of the BMP Manual can be found on the Department’s website at:

<https://dep.nj.gov/stormwater/bmp-manual/>.

F. Where the BMP tables in the NJ Stormwater Management Rule are different due to updates or amendments with the tables in this ordinance, the BMP Tables in the Stormwater Management rule at N.J.A.C. 7:8-5.2(f) shall take precedence.

Notes to Tables 1, 2, and 3:

- (a) subject to the applicable contributory drainage area limitation specified at subsection 26-1.4.O.2;
  - (b) designed to infiltrate into the subsoil;
  - (c) designed with underdrains;
  - (d) designed to maintain at least a 10-foot wide area of native vegetation along at least 50 percent of the shoreline and to include a stormwater runoff retention component designed to capture stormwater runoff for beneficial reuse, such as irrigation;
  - (e) designed with a slope of less than two percent;
  - (f) designed with a slope of equal to or greater than two percent;
  - (g) manufactured treatment devices that meet the definition of green infrastructure at subsection 26-1.2;
  - (h) manufactured treatment devices that do not meet the definition of green infrastructure at subsection 26-1.2.
- G. An alternative stormwater management measure, alternative removal rate, and/or alternative method to calculate the removal rate may be used if the design engineer demonstrates the capability of the proposed alternative stormwater management measure and/or the validity of the alternative rate or method to the municipality. A copy of any approved alternative stormwater management measure, alternative removal rate, and/or alternative method to calculate the removal rate shall be provided to the Department in accordance with subsection 26-1.4.B. Alternative stormwater management measures may be used to satisfy the requirements at subsection 26-1.4.O only if the measures meet the definition of green infrastructure at subsection 26-1.2. Alternative stormwater management measures that function in a similar manner to a BMP listed at subsection 26-1.4.O.2 are subject to the contributory drainage area limitation specified at subsection 26-1.4.O.2 for that similarly functioning BMP. Alternative stormwater management measures approved in accordance with this subsection that do not function in a similar manner to any BMP listed at subsection 26-1.4.O.2 shall have a contributory drainage area less than or equal to 2.5 acres, except for alternative stormwater management measures that function similarly to cisterns, grass swales, green roofs, standard constructed wetlands, vegetative filter strips, and wet ponds, which are not subject to a contributory drainage area limitation. Alternative measures that function similarly to standard constructed wetlands or wet ponds shall not be used for compliance with the stormwater runoff quality standard unless a variance in accordance with subsection 26-1.11 or a waiver from strict compliance in accordance with subsection 26-1.4.D is granted from subsection 26-1.4.O.
- H. Whenever the stormwater management design includes one or more BMPs that will infiltrate stormwater into subsoil, the design engineer shall assess the hydraulic impact on the groundwater table and design the site, so as to avoid adverse hydraulic impacts. Potential adverse hydraulic impacts include, but are not limited to, exacerbating a naturally or seasonally high water table, so as to cause surficial ponding, flooding of basements, or interference with the proper operation of subsurface sewage disposal systems or other subsurface structures within the zone of influence of the groundwater mound, or interference with the proper functioning of the stormwater management measure itself.

- I. Design standards for stormwater management measures are as follows:
1. Stormwater management measures shall be designed to take into account the existing site conditions, including, but not limited to, environmentally critical areas; wetlands; flood-prone areas; slopes; depth to seasonal high water table; soil type, permeability, and texture; drainage area and drainage patterns; and the presence of solution-prone carbonate rocks (limestone);
  2. Stormwater management measures shall be designed to minimize maintenance, facilitate maintenance and repairs, and ensure proper functioning. Trash racks shall be installed at the intake to the outlet structure, as appropriate, and shall have parallel bars with one-inch spacing between the bars to the elevation of the water quality design storm. For elevations higher than the water quality design storm, the parallel bars at the outlet structure shall be spaced no greater than one-third the width of the diameter of the orifice or one-third the width of the weir, with a minimum spacing between bars of one inch and a maximum spacing between bars of six inches. In addition, the design of trash racks must comply with the requirements of Section subsection 26-1.8.C.
  3. Stormwater management measures shall be designed, constructed, and installed to be strong, durable, and corrosion resistant. Measures that are consistent with the relevant portions of the Residential Site Improvement Standards at N.J.A.C. 5:21-7.3, 7.4, and 7.5 shall be deemed to meet this requirement;
  4. Stormwater management BMPs shall be designed to meet the minimum safety standards for stormwater management BMPs at Section VIII; and
  5. Any flow control device, such as an orifice, weir, grate or perforated pipe, at the outlet of the stormwater management measures shall be designed to prevent the clogging of the flow control device while achieving the design and performance standards at subsection 26-1.4.P, Q and R.
- J. Manufactured treatment devices may be used to meet the requirements of this section, provided the pollutant removal rates are verified by the New Jersey Corporation for Advanced Technology and certified by the Department. Manufactured treatment devices that do not meet the definition of green infrastructure at Section II may be used only under the circumstances described at subsection 26-1.4.O.4.
- K. Any application for a new agricultural development that meets the definition of major development at Section II shall be submitted to the Soil Conservation District for review and approval in accordance with the requirements at subsection 26-1.4 O, P, Q and R and any applicable Soil Conservation District guidelines for stormwater runoff quantity and erosion control. For purposes of this subsection, "agricultural development" means land uses normally associated with the production of food, fiber, and livestock for sale. Such uses do not include the development of land for the processing or sale of food and the manufacture of agriculturally related products.

- L. If there is more than one drainage area, the groundwater recharge, stormwater runoff quality, and stormwater runoff quantity standards at subsection 26-1.4.P, Q and R shall be met in each drainage area, unless the runoff from the drainage areas converge onsite and no adverse environmental impact would occur as a result of compliance with any one or more of the individual standards being determined utilizing a weighted average of the results achieved for that individual standard across the affected drainage areas.
  
- M. Any stormwater management measure authorized under the municipal stormwater management plan or ordinance shall be reflected in a deed notice recorded in the Office of the Union County Clerk. A form of deed notice shall be submitted to the municipality for approval prior to filing. The deed notice shall contain a description of the stormwater management measure(s) used to meet the green infrastructure, groundwater recharge, stormwater runoff quality, and stormwater runoff quantity standards at subsection 26-1.4.O, P, Q and R and shall identify the location of the stormwater management measure(s) in NAD 1983 State Plane New Jersey FIPS 2900 US Feet or Latitude and Longitude in decimal degrees. The deed notice shall also reference the maintenance plan required to be recorded upon the deed pursuant to subsection 26-1.10.B.5. Prior to the commencement of construction, proof that the above required deed notice has been filed shall be submitted to the municipality. Proof that the required information has been recorded on the deed shall be in the form of either a copy of the complete recorded document or a receipt from the clerk or other proof of recordation provided by the recording office. However, if the initial proof provided to the municipality is not a copy of the complete recorded document, a copy of the complete recorded document shall be provided to the municipality within 180 calendar days of the authorization granted by the municipality.
  
- N. A stormwater management measure approved under the municipal stormwater management plan or ordinance may be altered or replaced with the approval of the municipality, if the municipality determines that the proposed alteration or replacement meets the design and performance standards pursuant to Section IV of this ordinance and provides the same level of stormwater management as the previously approved stormwater management measure that is being altered or replaced. If an alteration or replacement is approved, a revised deed notice shall be submitted to the municipality for approval and subsequently recorded with the Office of the Union County Clerk and shall contain a description and location of the stormwater management measure, as well as reference to the maintenance plan, in accordance with M above. Prior to the commencement of construction, proof that the above required deed notice has been filed shall be submitted to the municipality in accordance with M above.
  
- O. Green Infrastructure Standards
  - 1. This subsection specifies the types of green infrastructure BMPs that may be used to satisfy the groundwater recharge, stormwater runoff quality, and stormwater runoff quantity standards.

2. Except as provided at O.6 through O.10 below, to satisfy the groundwater recharge and stormwater runoff quality standards at subsection 26-1.4.P and Q, the design engineer shall utilize green infrastructure BMPs identified in Table 1 at subsection 26-1.4.F and/or an alternative stormwater management measure approved in accordance with subsection 26-1.4.G. The following green infrastructure BMPs are subject to the following maximum contributory drainage area limitations:

<b>Best Management Practice</b>	<b>Maximum Contributory Drainage Area</b>
Dry Well	1 acre
Manufactured Treatment Device	2.5 acres
Pervious Pavement Systems	Area of additional inflow cannot exceed three times the area occupied by the BMP
Small-scale Bioretention Systems	2.5 acres
Small-scale Infiltration Basin	2.5 acres
Small-scale Sand Filter	2.5 acres

3. Except as provided at O.6, O.7.i, O.7.iii, O.8, O.9 and O.10 below, to satisfy the stormwater runoff quantity standards at Section IV.R, the design engineer shall utilize BMPs from Table 1 or from Table 2 and/or an alternative stormwater management measure approved in accordance with subsection 26-1.4.G.
4. If a variance in accordance with subsection 26-1.11 or a waiver from strict compliance in accordance with subsection 26-1.4.D is granted from the requirements of this subsection, then BMPs from Table 1, 2, or 3, and/or an alternative stormwater management measure approved in accordance with subsection 26-1.4.G may be used to meet the groundwater recharge, stormwater runoff quality, and stormwater runoff quantity standards at Sections subsection 26-1.4.P, Q and R.
5. For separate or combined storm sewer improvement projects, such as sewer separation, undertaken by a government agency or public utility (for example, a sewerage company), the requirements of this subsection shall only apply to areas owned in fee simple by the government agency or utility, and areas within a right-of-way or easement held or controlled by the government agency or utility; the entity shall not be required to obtain additional property or property rights to fully satisfy the requirements of this subsection. Regardless of the amount of area of a separate or combined storm sewer improvement project subject to the green infrastructure requirements of this subsection, each project shall fully comply with the applicable groundwater recharge, stormwater runoff quality control, and stormwater runoff quantity standards at subsection 26-1.4.P, Q and R, unless the project is granted a waiver from strict compliance in accordance with subsection 26-1.4.D.

6. The municipality or another public transportation entity proposing a public roadway or railroad project shall demonstrate compliance with the minimum design and performance standards for groundwater recharge, stormwater runoff quality, and stormwater runoff quantity at subsection 26-1.4 .P, Q, and R, respectively, by utilizing green infrastructure BMPs from Tables 1 or 2 within the public roadway or railroad project limits, unless green infrastructure BMPs from Tables 1 or 2 cannot be utilized due to unsuitable hydrologic, hydraulic, or physical conditions. If green infrastructure BMPs from Tables 1 or 2 cannot be utilized within the public roadway or railroad project limits due to unsuitable hydrologic, hydraulic, or physical conditions, subsection 26-1.4.O.7 below shall apply.
7. Where the municipality or another public transportation entity demonstrates that it cannot achieve compliance with the minimum design and performance standards for groundwater recharge, stormwater runoff quality, and stormwater runoff quantity within the public roadway or railroad project limits in accordance with O.6 above, the following requirements shall apply:
  - i. The municipality or another public transportation entity shall demonstrate compliance with the minimum design and performance standards for groundwater recharge, stormwater runoff quality, and stormwater runoff quantity at subsection 26-1.4..P, Q, and R, respectively, by utilizing green infrastructure BMPs from Tables 1 or 2 in disturbed lands immediately adjacent to the public roadway or railroad project limits.
    - a. All disturbed lands adjacent to the public roadway or railroad project limits shall be investigated for achieving compliance with this paragraph regardless of whether the disturbed land is owned or controlled by the municipality or another public transportation entity. For the purpose of this subparagraph, disturbed land includes lawn, farmland, or other disturbed areas, but excludes preserved farmland and wooded areas.
    - b. The municipality or another public transportation entity's investigation shall include lands held for recreation and conservation purposes. However, such lands are not required to be utilized if the proposed green infrastructure solution would violate State or Federal law or be inconsistent with or require a release or modification of any recorded restrictions on the property.
    - c. Compliance with the minimum design and performance standards for groundwater recharge, stormwater runoff quality, and stormwater runoff quantity shall be achieved within the disturbed lands immediately adjacent to the public roadway or railroad project limits, unless the municipality or another public transportation entity demonstrates that compliance within this area cannot be achieved due to unsuitable hydrologic, hydraulic, or physical conditions.

- ii. If the municipality or another public transportation entity has demonstrated that compliance with O.7.i above cannot be achieved due to unsuitable hydrologic, hydraulic, or physical conditions, the municipality or another public transportation entity shall demonstrate compliance with the minimum design and performance standards for groundwater recharge and stormwater runoff quality at subsection 26-1.4.P and Q, respectively, by utilizing green infrastructure BMPs from Tables 1 or 2 in the land owned or controlled by the municipality or another public transportation entity, and the disturbed areas immediately adjacent thereto, located upstream of the project and within the same HUC-14 as the project.
  - iii. If the municipality or another public transportation entity has demonstrated that compliance with groundwater recharge and stormwater runoff quality standards pursuant to both O.7.i and O.7.ii above and/or stormwater runoff quantity standards pursuant to O.7.i above cannot be achieved due to unsuitable hydrologic, hydraulic, or physical conditions, the municipality or another public transportation entity may utilize stormwater BMPs from Table 3 to comply with the unmet standards that have been demonstrated to be not achieved pursuant to O.7.i and O.7.ii above, as applicable, without the need to request a waiver from strict compliance pursuant to subsection 26-1.4.D.
8. If the municipality or another public transportation entity seeking to enlarge an existing public roadway or railroad demonstrates that compliance with the design and performance standards for stormwater runoff quality, groundwater recharge, or stormwater runoff quantity cannot be achieved in accordance with O.6 and O.7 above, it shall request a waiver from strict compliance pursuant to subsection 26-1.4.D. The construction of new public roadways or railroads are not eligible for the waiver from strict compliance at subsection 26-1.4.D.
9. For the purposes of O.6 and O.7 above, unsuitable hydrologic, hydraulic, or physical conditions means any physical, hydrologic, or hydraulic impediment that prevents the installation of a functioning BMP on a particular area of land such as, but not limited to, high seasonal high water table elevation, slope steeper than the maximum slope allowable for a BMP, karst topography, shallow depth to bedrock, unavoidable adverse impact resulting from groundwater mounding, or physical impedances caused by existing structures. Additionally, an inability to retain safe pedestrian passage shall be considered an unsuitable physical condition. Demonstration of unsuitable hydrologic or hydraulic conditions shall be supported by appropriate documentation that complies with the requirements set forth in the applicable laws, rules, ordinances, and construction codes, such as soil testing reports, site plans, survey maps, geological investigation reports, geotechnical reports, and/or photos. The documents shall be submitted to the Department, along with the certification required at O.10 below. Further, the municipality or another public transportation entity shall retain copies of the documents. Installation of a stormwater BMP within the area of a sidewalk, whether within or outside the public roadway or railroad project limits, shall provide sufficient pedestrian passage in the remaining sidewalk.

10. If the municipality or another public transportation entity has demonstrated compliance with the groundwater recharge, stormwater runoff quantity, and stormwater runoff quality requirements of this ordinance in accordance with O.7 and O.8 above, the municipality or another public transportation entity shall submit to the Department a certification stating that the municipality or another public transportation entity has conducted its analysis in conformance with O.6 through O.8 above. The certification shall:
  - i. Be signed and sealed by one or more design engineers;
  - ii. Be endorsed by the chief executive officer of the municipality or another public transportation entity; a senior executive officer having responsibility for the overall operations of a principal geographic unit of the public transportation entity (for example, Regional Administrator); or a duly authorized representative by the chief executive officer of the public transportation entity;
  - iii. Include the description of project, location, name and title of the individual with direct knowledge of the review and analysis, the description of the investigation performed, rationale for the decision, and the documentation described in O.9 above must be attached to the certification;
  - iv. Be submitted to the Department at the email address listed in subsection 26-1.6.B as part of the application for any permit listed in N.J.A.C. 7:8-1.6(a)1 through 5, if applicable, and
  - v. Be included in the annual report that is required to be submitted to the Department pursuant to the municipality's Municipal Separate Storm Sewer System permit, pursuant to N.J.A.C. 7:14A.
11. Notwithstanding the requirements in this subsection, any public roadway or railroad project that has determined a preferred alternative or equivalent milestone by March 2, 2021, shall not be subject to O.2, O.3, and O.4 above, provided that the municipality or another public transportation entity submits to the Department at the email address listed at subsection 26-1.6.B, by March 20, 2026, a list of projects that have selected a preferred alternative or equivalent milestone by March 2, 2021, and that the municipality or another public transportation entity does not make a substantial change to the design of the project on or after March 2, 2021.

P. Groundwater Recharge Standards

1. This subsection contains the minimum design and performance standards for groundwater recharge as follows:
2. The design engineer shall, using the assumptions and factors for stormwater runoff and groundwater recharge calculations at subsection 26-1.5, either:
  - i. Demonstrate through hydrologic and hydraulic analysis that the site and its stormwater management measures maintain 100 percent of the average annual pre-construction groundwater recharge volume for the site; or
  - ii. Demonstrate through hydrologic and hydraulic analysis that the increase of stormwater runoff volume from pre-construction to post-construction for the projected 2-year storm, as defined and determined pursuant to subsection 26-1.5..D of this ordinance, is infiltrated.

3. This groundwater recharge requirement does not apply to projects within the “urban redevelopment area,” or to projects subject to P.4 below.
4. The following types of stormwater shall not be recharged:
  - i. Stormwater from areas of high pollutant loading. High pollutant loading areas are areas in industrial and commercial developments where solvents and/or petroleum products are loaded/unloaded, stored, or applied, areas where pesticides are loaded/unloaded or stored; areas where hazardous materials are expected to be present in greater than “reportable quantities” as defined by the United States Environmental Protection Agency (EPA) at 40 CFR 302.4; areas where recharge would be inconsistent with Department approved remedial action work plan approved pursuant to the Administrative Requirements for the Remediation of Contaminated Sites rules, N.J.A.C. 7:26C, or Department landfill closure plan and areas; and areas with high risks for spills of toxic materials, such as gas stations and vehicle maintenance facilities; and
  - ii. Industrial stormwater exposed to “source material.” “Source material” means any material(s) or machinery, located at an industrial facility, that is directly or indirectly related to process, manufacturing or other industrial activities, which could be a source of pollutants in any industrial stormwater discharge to groundwater. Source materials include, but are not limited to, raw materials; intermediate products; final products; waste materials; by-products; industrial machinery and fuels, and lubricants, solvents, and detergents that are related to process, manufacturing, or other industrial activities that are exposed to stormwater.

Q. Stormwater Runoff Quality Standards

1. This subsection sets forth the minimum design and performance standards to control stormwater runoff quality impacts of major development. Stormwater runoff quality standards are applicable when the major development results in an increase of one-quarter acre or more of regulated motor vehicle surface or the reconstruction of one-quarter acre or more of motor vehicle surface.
2. Stormwater management measures shall be designed to reduce the post-construction load of total suspended solids (TSS) in stormwater runoff generated from the water quality design storm from all new and reconstructed motor vehicle surface as follows:
  - i. Ninety-five percent TSS removal of the anticipated load, expressed as an annual average, shall be achieved for stormwater runoff from any new or reconstructed motor vehicle surface that is proposed to be:
    - a. Discharged within a 300-foot riparian zone (as established by the Flood Hazard Area Control Act Rules at N.J.A.C. 7:13-4.1(c)1); or
    - b. Discharged into an existing or proposed stormwater conveyance system that ultimately discharges within a 300-foot riparian zone located within the same HUC14 as the major development.

- ii. Eighty percent TSS removal of the anticipated load, expressed as an annual average shall be achieved for the stormwater runoff from any new or reconstructed motor vehicle surface not covered by Q.2.i above, except as follows:
  - a. Where the municipality or another public transportation entity demonstrates that achieving 80 percent TSS removal pursuant to Q.2.ii above for a public roadway project would require acquisition of developed or otherwise encumbered land outside of the entity's existing right-of-way along the section of roadway being improved or constructed, the public transportation entity shall instead provide water quality treatment to the maximum extent practicable, with a minimum water quality treatment of 50 percent TSS removal for all new and reconstructed motor vehicle.
  - iii. If the surface is considered regulated motor vehicle surface because the water quality treatment for an area of motor vehicle surface that is currently receiving water quality treatment either by vegetation or soil, by an existing stormwater management measure, or by treatment at a wastewater treatment plant is to be modified or removed, the project shall maintain or increase the existing TSS removal of the anticipated load expressed as an annual average, unless Q.2.i or Q.2.ii above require a higher level of TSS removal.
  - iv.
- 3. The requirement to reduce TSS does not apply to any stormwater runoff in a discharge regulated under a numeric effluent limitation for TSS imposed under the New Jersey Pollutant Discharge Elimination System (NJPDES) rules, N.J.A.C. 7:14A, or in a discharge specifically exempt under a NJPDES permit from this requirement. Every major development, including any that discharge into a combined sewer system, shall comply with 2 above, unless the major development is itself subject to a NJPDES permit with a numeric effluent limitation for TSS or the NJPDES permit to which the major development is subject exempts the development from a numeric effluent limitation for TSS.
- 4. The water quality design storm is 1.25 inches of rainfall in two hours. Water quality calculations shall take into account the distribution of rain from the water quality design storm, as reflected in Table 4, below. The calculation of the volume of runoff may take into account the implementation of stormwater management measures.

<b>Table 4 - Water Quality Design Storm Distribution</b>					
<b>Time (Minutes)</b>	<b>Cumulative Rainfall (Inches)</b>	<b>Time (Minutes)</b>	<b>Cumulative Rainfall (Inches)</b>	<b>Time (Minutes)</b>	<b>Cumulative Rainfall (Inches)</b>
1	0.00166	41	0.1728	81	1.0906
2	0.00332	42	0.1796	82	1.0972
3	0.00498	43	0.1864	83	1.1038
4	0.00664	44	0.1932	84	1.1104
5	0.00830	45	0.2000	85	1.1170
6	0.00996	46	0.2117	86	1.1236

8	0.01328	48	0.2350	88	1.1368
9	0.01494	49	0.2466	89	1.1434
10	0.01660	50	0.2583	90	1.1500
11	0.01828	51	0.2783	91	1.1550
12	0.01996	52	0.2983	92	1.1600
13	0.02164	53	0.3183	93	1.1650
14	0.02332	54	0.3383	94	1.1700
15	0.02500	55	0.3583	95	1.1750
16	0.03000	56	0.4116	96	1.1800
17	0.03500	57	0.4650	97	1.1850
18	0.04000	58	0.5183	98	1.1900
19	0.04500	59	0.5717	99	1.1950
20	0.05000	60	0.6250	100	1.2000
21	0.05500	61	0.6783	101	1.2050
22	0.06000	62	0.7317	102	1.2100
23	0.06500	63	0.7850	103	1.2150
24	0.07000	64	0.8384	104	1.2200
25	0.07500	65	0.8917	105	1.2250
26	0.08000	66	0.9117	106	1.2267
27	0.08500	67	0.9317	107	1.2284
28	0.09000	68	0.9517	108	1.2300
29	0.09500	69	0.9717	109	1.2317
30	0.10000	70	0.9917	110	1.2334
31	0.10660	71	1.0034	111	1.2351
32	0.11320	72	1.0150	112	1.2367
33	0.11980	73	1.0267	113	1.2384
34	0.12640	74	1.0383	114	1.2400
35	0.13300	75	1.0500	115	1.2417
36	0.13960	76	1.0568	116	1.2434
37	0.14620	77	1.0636	117	1.2450
38	0.15280	78	1.0704	118	1.2467
39	0.15940	79	1.0772	119	1.2483
40	0.16600	80	1.0840	120	1.2500

5. If more than one BMP in series is necessary to achieve the required 80 percent TSS reduction for a site, the applicant shall utilize the following formula to calculate TSS reduction:

$$R = A + B - (A \times B) / 100,$$

Where

*R* = total TSS Percent Load Removal from application of both BMPs, and

*A* = the TSS Percent Removal Rate applicable to the first BMP

*B* = the TSS Percent Removal Rate applicable to the second BMP.

6. Stormwater management measures shall also be designed to reduce, to the maximum extent feasible, the post-construction nutrient load of the anticipated load from the developed site in stormwater runoff generated from the water quality design storm. In achieving reduction of nutrients to the maximum extent feasible, the design of the site shall include green infrastructure BMPs that optimize nutrient removal while still achieving the performance standards in subsection 26-1.4.P, Q and R.
7. In accordance with the definition of FW1 at N.J.A.C. 7:9B-1.4, stormwater management measures shall be designed to prevent any increase in stormwater runoff to waters classified as FW1.
8. The Flood Hazard Area Control Act Rules at N.J.A.C. 7:13-4.1(c)1 establish 300-foot riparian zones along Category One waters, as designated in the Surface Water Quality Standards at N.J.A.C. 7:9B, and certain upstream tributaries to Category One waters. A person shall not undertake a major development that is located within or discharges into a 300-foot riparian zone without prior authorization from the Department under N.J.A.C. 7:13.
9. The stormwater runoff quality standards do not apply to the construction of one individual single-family dwelling, provided that it is not part of a larger development or subdivision that has received preliminary or final site plan approval prior to December 3, 2018, and that the motor vehicle surfaces are made of permeable material(s) such as gravel, dirt, and/or shells.
10. Stormwater management measures shall be designed to incorporate any additional measures specified in a total maximum daily load(s) approved or established by United States Environmental Protection Agency, unless otherwise required pursuant to N.J.A.C. 7:14A-25.6(e).

#### R. Stormwater Runoff Quantity Standards

1. This subsection contains the minimum design and performance standards to control stormwater runoff quantity impacts of major development.
2. In order to control stormwater runoff quantity impacts, the design engineer shall, using the assumptions and factors for stormwater runoff calculations at Section subsection 26-1.5, complete one of the following:

- i. Demonstrate through hydrologic and hydraulic analysis that for stormwater leaving the site, post-construction runoff hydrographs for the current and projected 2-, 10-, and 100-year storm events, as defined and determined in subsection 26-1.5.C and D, respectively, of this ordinance, do not exceed, at any point in time, the pre-construction runoff hydrographs for the same storm events;
  - ii. Demonstrate through hydrologic and hydraulic analysis that there is no increase, as compared to the pre-construction condition, in the peak runoff rates of stormwater leaving the site for the current and projected 2-, 10-, and 100-year storm events, as defined and determined pursuant to subsection 26-1.5.C and D, respectively, of this ordinance, and that the increased volume or change in timing of stormwater runoff will not increase flood damage at or downstream of the site. This analysis shall include the analysis of impacts of existing land uses and projected land uses assuming full development pursuant to existing zoning and land use ordinances in the drainage area.
    - a. If the analysis demonstrates that there is no increase in the volume or peak runoff rates of stormwater leaving the site, and the change in timing is solely a result of the proposed installation of BMPs to comply with subsection 26-1.6.Q or subsection 26-1.6.R.4 below, then no analysis of downstream flooding impacts shall be required, unless the review agency determines that the project will result in increased flood damages downstream of the site;
  - iii. Design stormwater management measures so that the post-construction peak runoff rates for the current and projected 2-, 10-, and 100-year storm events, as defined and determined in subsection 26-1.5.C and D, respectively, of this ordinance, are 50, 75 and 80 percent, respectively, of the pre-construction peak runoff rates. The percentages apply only to the post-construction stormwater runoff that is attributable to the portion of the site on which the proposed development or project is to be constructed; or
  - iv. In tidal flood hazard areas, stormwater runoff quantity analysis in accordance with R.2.i, ii and iii above is required unless the design engineer demonstrates through hydrologic and hydraulic analysis that the increased volume, change in timing, or increased rate of the stormwater runoff, or any combination of the three will not result in additional flood damage below the point of discharge of the major development. No analysis is required if the stormwater is discharged directly into any ocean, bay, inlet, or the reach of any watercourse between its confluence with an ocean, bay, or inlet and downstream of the first water control structure.
3. The stormwater runoff quantity standards shall be applied at the site's boundary to each abutting lot, roadway, watercourse, or receiving storm sewer system.
4. Except as provided in R.4.iii below, the design engineer shall demonstrate that the major development meets the minimum volumetric reduction standard in accordance with R.4.i and/or R.4.ii below.

- i. Stormwater management measures shall be designed to achieve retention of the water quality design storm by incorporating green infrastructure BMPs from Table 1 and Table 2 unless R.4.i.a below applies:
  - a. Where an applicant demonstrates that compliance with this subparagraph is technically impracticable as set forth in Section XI, or the type of stormwater is subject to subsection 26-1.4.P.4, a major development site shall instead meet the hydrograph requirements at R.4.i.a(1) and R.4.i.a(2) below:
    - (1) The runoff peak flow rate of the water quality design storm from the site shall be less than the runoff peak flow rate of the water quality design storm from a drainage area equivalent to the size of the disturbed area of the major development, with a woods cover type, in good hydrologic condition and on Hydrologic Soil Group D soil; and
    - (2) The runoff hydrograph duration of the water quality design storm from the site shall be greater than the runoff hydrograph duration of the water quality design storm from a drainage area equivalent to the size of disturbed areas of the major development, with a woods cover type, in good hydrologic condition, and on Hydrologic Soil Group D soil. For the purposes of this sub-subparagraph, “runoff hydrograph duration” means the duration between the time that the runoff flow rate starts to be greater than zero to the time that the runoff flow rate becomes zero.
- ii. In the alternative of R.4.i above, the applicant may address all or a portion of the volumetric reduction standard, as follows:
  - a. The applicant shall undertake one or both of the following:
    - (1) Removal of existing impervious surface totaling an area equal to or greater than the impervious surface within the disturbed portions of the major development site; and/or
    - (2) Retention of an equivalent or greater volume of stormwater runoff generated by the water quality design storm required pursuant to R.4 above at an offsite location. Runoff retained from storms other than the water quality design storm shall not be counted toward compliance with this requirement.
  - b. Volumetric reduction pursuant to R.4.ii.a above shall occur within the same HUC-14 as the major development, except where the applicant is a public transportation entity that demonstrates providing volumetric reduction within the same HUC-14 is technically reasons as set forth in subsection 26-1.11, in which case the applicant shall provide volumetric reduction within the same Watershed Management Area as the major development, and as close as practicable to the major development.

- c. Any application for a major development that utilizes offsite impervious surface removal or retention to comply with the volumetric reduction standard must be accompanied by sufficient information and property owner permission to fully review and approve the offsite portion of the project along with the major development itself. Applications utilizing offsite impervious surface removal or retention without this information shall not be considered complete. Further, any offsite portions of the project must be construction prior to, or concurrent with, the major development.
- iii. The volumetric reduction standards of this subsection shall not be applicable to projects that are undertaken by a public transportation entity in cases where the project meets the definition of major development solely because the project results in increased capacity of an existing stormwater conveyance system.

**§26-1.5. Calculation of Stormwater Runoff and Groundwater Recharge:**

A. Stormwater runoff shall be calculated in accordance with the following:

1. The design engineer shall calculate runoff using the following method:

The USDA Natural Resources Conservation Service (NRCS) methodology, including the NRCS Runoff Equation and Dimensionless Unit Hydrograph, as described in Chapters 7, 9, 10, 15 and 16 *Part 630, Hydrology National Engineering Handbook*, incorporated herein by reference as amended and supplemented. This methodology is additionally described in *Technical Release 55 - Urban Hydrology for Small Watersheds (TR-55)*, dated June 1986, incorporated herein by reference as amended and supplemented. Information regarding the methodology is available from the Natural Resources Conservation Service website at:

<https://directives.sc.egov.usda.gov/directive/24>

2. For the purpose of calculating curve numbers and groundwater recharge, there is a presumption that the pre-construction condition of a site or portion thereof is a wooded land use with good hydrologic condition. The term “curve number” applies to the NRCS methodology above at Section V.A.1. A curve number or a groundwater recharge land cover for an existing condition may be used on all or a portion of the site if the design engineer verifies that the hydrologic condition has existed on the site or portion of the site for at least five years without interruption prior to the time of application. If more than one land cover has existed on the site during the five years immediately prior to the time of application, the land cover with the lowest runoff potential shall be used for the computations. In addition, there is the presumption that the site is in good hydrologic condition (if the land use type is pasture, lawn, or park), with good cover (if the land use type is woods), or with good hydrologic condition and conservation treatment (if the land use type is cultivation).

3. In computing pre-construction stormwater runoff, the design engineer shall account for all significant land features and structures, such as ponds, wetlands, depressions, hedgerows, or culverts, that may reduce pre-construction stormwater runoff rates and volumes.
4. In computing stormwater runoff from all design storms, the design engineer shall consider the relative stormwater runoff rates and/or volumes of pervious and impervious surfaces separately to accurately compute the rates and volume of stormwater runoff from the site. To calculate runoff from unconnected impervious cover, urban impervious area modifications as described in the NRCS *Technical Release 55 – Urban Hydrology for Small Watersheds* or other methods may be employed.
5. If the invert of the outlet structure of a stormwater management measure is below the flood hazard design flood elevation as defined at N.J.A.C. 7:13, the design engineer shall take into account the effects of tailwater in the design of structural stormwater management measures.

B. Groundwater recharge may be calculated in accordance with the following:

The New Jersey Geological Survey Report GSR-32: A Method for Evaluating Groundwater-Recharge Areas in New Jersey, incorporated herein by reference as amended and supplemented. Information regarding the methodology is available from the New Jersey Stormwater Best Management Practices Manual; at the New Jersey Geological Survey website at:

<https://www.nj.gov/dep/njgs/pricelst/gsreport/gsr32.pdf>

or at New Jersey Geological and Water Survey, 29 Arctic Parkway, PO Box 420 Mail Code 29-01, Trenton, New Jersey 08625-0420.

C. The precipitation depths of the current two-, 10-, and 100-year storm events shall be determined by multiplying the values determined in accordance with items 1 and 2 below:

1. The applicant shall utilize the National Oceanographic and Atmospheric Administration (NOAA), National Weather Service's Atlas 14 Point Precipitation Frequency Estimates: NJ, in accordance with the location(s) of the drainage area(s) of the site. This data is available at:

[https://hdsc.nws.noaa.gov/hdsc/pfds/pfds\\_map\\_cont.html?bkmrk=nj; and](https://hdsc.nws.noaa.gov/hdsc/pfds/pfds_map_cont.html?bkmrk=nj; and)

2. The applicant shall utilize Table 5: Current Precipitation Adjustment Factors below, which sets forth the applicable multiplier for the drainage area(s) of the site, in accordance with the county or counties where the drainage area(s) of the site is located. Where the major development lies in more than one county, the precipitation values shall be adjusted according to the percentage of the drainage area in each county. Alternately, separate rainfall totals can be developed for each county using the values in the table below.

*NOTE: The municipality may instead wish to abbreviate this table along with the text in Item 2 above to reflect only the relevant information, depending on the location of the municipality. The current precipitation adjustment factors added to the ordinance shall be those found in N.J.A.C. 7:8-5.7(c) as Table 5-5.*

**Table 5: Current Precipitation Adjustment Factors**

County	Current Precipitation Adjustment Factors		
	2-year Design Storm	10-year Design Storm	100-year Design Storm
Atlantic	1.01	1.02	1.03
Bergen	1.01	1.03	1.06
Burlington	0.99	1.01	1.04
Camden	1.03	1.04	1.05
Cape May	1.03	1.03	1.04
Cumberland	1.03	1.03	1.01
Essex	1.01	1.03	1.06
Gloucester	1.05	1.06	1.06
Hudson	1.03	1.05	1.09
Hunterdon	1.02	1.05	1.13
Mercer	1.01	1.02	1.04
Middlesex	1.00	1.01	1.03
Monmouth	1.00	1.01	1.02
Morris	1.01	1.03	1.06
Ocean	1.00	1.01	1.03
Passaic	1.00	1.02	1.05
Salem	1.02	1.03	1.03
Somerset	1.00	1.03	1.09
Sussex	1.03	1.04	1.07
Union	1.01	1.03	1.06
Warren	1.02	1.07	1.15

- D. Table 6: Future Precipitation Change Factors provided below sets forth the change factors to be used in determining the projected two-, 10-, and 100-year storm events for use in this ordinance, which are organized alphabetically by county. The precipitation depth of the projected two-, 10-, and 100-year storm events of a site shall be determined by multiplying the precipitation depth of the two-, 10-, and 100-year storm events determined from the National Weather Service’s Atlas 14 Point Precipitation Frequency Estimates pursuant to C.1 above, by the change factor in the table below, in accordance with the county or counties where the drainage area(s) of the site is located. Where the major development and/or its drainage area lies in more than one county, the precipitation values shall be adjusted according to the percentage of the drainage area in each county. Alternately, separate rainfall totals can be developed for each county using the values in the table below.

**Table 6: Future Precipitation Change Factors**

County	Future Precipitation Change Factors		
	2-year Design Storm	10-year Design Storm	100-year Design Storm
Atlantic	1.22	1.24	1.39
Bergen	1.20	1.23	1.37
Burlington	1.17	1.18	1.32
Camden	1.18	1.22	1.39
Cape May	1.21	1.24	1.32
Cumberland	1.20	1.21	1.39
Essex	1.19	1.22	1.33
Gloucester	1.19	1.23	1.41
Hudson	1.19	1.19	1.23
Hunterdon	1.19	1.23	1.42
Mercer	1.16	1.17	1.36
Middlesex	1.19	1.21	1.33
Monmouth	1.19	1.19	1.26
Morris	1.23	1.28	1.46
Ocean	1.18	1.19	1.24
Passaic	1.21	1.27	1.50
Salem	1.20	1.23	1.32
Somerset	1.19	1.24	1.48
Sussex	1.24	1.29	1.50
Union	1.20	1.23	1.35
Warren	1.20	1.25	1.37

### **§26-1.6 Sources for Technical Guidance:**

- A. Technical guidance for stormwater management measures can be found in the documents listed below, which are available to download from the Department's website at:

<https://dep.nj.gov/stormwater/bmp-manual/>.

1. Guidelines for stormwater management measures are contained in the New Jersey Stormwater Best Management Practices Manual, as amended and supplemented. Information is provided on stormwater management measures such as, but not limited to, those listed in Tables 1, 2, and 3.
2. Additional maintenance guidance is available on the Department's website at:

<https://dep.nj.gov/stormwater/maintenance-guidance/>.

- B. Submissions required for review by the Department should be directed to the New Jersey Department of Environmental Protection's Division of Watershed Protection and Restoration through email to [stormwatermanagementrules@dep.nj.gov](mailto:stormwatermanagementrules@dep.nj.gov).

### **§26-1.7. Solids and Floatable Materials Control Standards:**

- A. Site design features identified under subsection 26-1.4.F, or alternative designs in accordance with subsection 26-1.4.G, to prevent discharge of trash and debris from drainage systems shall comply with the following standard to control passage of solid and floatable materials through storm drain inlets. For purposes of this subsection, "solid and floatable materials" means sediment, debris, trash, and other floating, suspended, or settleable solids. For exemptions to this standard see. A. 2 below.

1. Design engineers shall use one of the following grates whenever they use a grate in pavement or another ground surface to collect stormwater from that surface into a storm drain or surface water body under that grate:
  - i. The New Jersey Department of Transportation (NJDOT) bicycle safe grate, which is described in Chapter 2.4 of the NJDOT Bicycle Compatible Roadways and Bikeways Planning and Design Guidelines; or
  - ii. A different grate, if each individual clear space in that grate has an area of no more than seven (7.0) square inches, or is no greater than 0.5 inches across the smallest dimension.

Examples of grates subject to this standard include grates in grate inlets, the grate portion (non-curb-opening portion) of combination inlets, grates on storm sewer manholes, ditch grates, trench grates, and grates of spacer bars in slotted drains. Examples of ground surfaces include surfaces of roads (including bridges), driveways, parking areas, bikeways, plazas, sidewalks, lawns, fields, open channels, and stormwater system floors used to collect stormwater from the surface into a storm drain or surface water body.

- iii. For curb-opening inlets, including curb-opening inlets in combination inlets, the clear space in that curb opening, or each individual clear space if the curb opening has two or more clear spaces, shall have an area of no more than seven (7.0) square inches, or be no greater than two (2.0) inches across the smallest dimension.

2. The standard in A.1. above does not apply:

- i. Where each individual clear space in the curb opening in existing curb-opening inlet does not have an area of more than nine (9.0) square inches;
- ii. Where the municipality agrees that the standards would cause inadequate hydraulic performance that could not practicably be overcome by using additional or larger storm drain inlets;
- iii. Where flows from the water quality design storm as specified in N.J.A.C. 7:8 are conveyed through any device (e.g., end of pipe netting facility, manufactured treatment device, or a catch basin hood) that is designed, at a minimum, to prevent delivery of all solid and floatable materials that could not pass through one of the following:
  - a. A rectangular space four and five-eighths (4.625) inches long and one and one-half (1.5) inches wide (this option does not apply for outfall netting facilities); or
  - b. A bar screen having a bar spacing of 0.5 inches.

Note that these exemptions do not authorize any infringement of requirements in the Residential Site Improvement Standards for bicycle safe grates in new residential development (N.J.A.C. 5:21-4.18(b)2 and 7.4(b)1).

- iv. Where flows are conveyed through a trash rack that has parallel bars with one-inch (1 inch) spacing between the bars, to the elevation of the Water Quality Design Storm as specified in N.J.A.C. 7:8; or
- v. Where the New Jersey Department of Environmental Protection determines, pursuant to the New Jersey Register of Historic Places Rules at N.J.A.C. 7:4-7.2(c), that action to meet this standard is an undertaking that constitutes an encroachment or will damage or destroy the New Jersey Register listed historic property.

**§26-1.8. Safety Standards for Stormwater Management Basins:**

- A. This section sets forth requirements to protect public safety through the proper design and operation of stormwater management BMPs. This section applies to any new stormwater management BMP.
- B. The provisions of this section are not intended to preempt more stringent municipal or county safety requirements for new or existing stormwater management BMPs. Municipal and county stormwater management plans and ordinances may, pursuant to their authority, require existing stormwater management BMPs to be retrofitted to meet one or more of the safety standards in subsection 26-1.8.C.1, C.2, and C.3 for trash racks, overflow grates, and escape provisions at outlet structures.
- C. Requirements for Trash Racks, Overflow Grates and Escape Provisions
  - 1. A trash rack is a device designed to catch trash and debris and prevent the clogging of outlet structures. Trash racks shall be installed at the intake to the outlet from the Stormwater management BMP to ensure proper functioning of the BMP outlets in accordance with the following:
    - i. The trash rack shall have parallel bars, with no greater than six-inch spacing between the bars;
    - ii. The trash rack shall be designed so as not to adversely affect the hydraulic performance of the outlet pipe or structure;
    - iii. The average velocity of flow through a clean trash rack is not to exceed 2.5 feet per second under the full range of stage and discharge. Velocity is to be computed on the basis of the net area of opening through the rack; and
    - iv. The trash rack shall be constructed of rigid, durable, and corrosion resistant material and designed to withstand a perpendicular live loading of 300 pounds per square foot.
  - 2. An overflow grate is designed to prevent obstruction of the overflow structure. If an outlet structure has an overflow grate, such grate shall meet the following requirements:
    - i. The overflow grate shall be secured to the outlet structure but removable for emergencies and maintenance.
    - ii. The overflow grate spacing shall be no greater than two inches across the smallest dimension
    - iii. The overflow grate shall be constructed and installed to be rigid, durable, and corrosion resistant, and shall be designed to withstand a perpendicular live loading of 300 pounds per square foot.
  - 3. Stormwater management BMPs shall include escape provisions as follows:
    - i. If a stormwater management BMP has an outlet structure, escape provisions shall be incorporated in or on the structure. Escape provisions include the installation of permanent ladders, steps, rungs, or other features that provide easily accessible means of egress from stormwater management BMPs. With the prior approval of the municipality pursuant to subsection 26-1.8.C, a free-standing outlet structure may be exempted from this requirement;

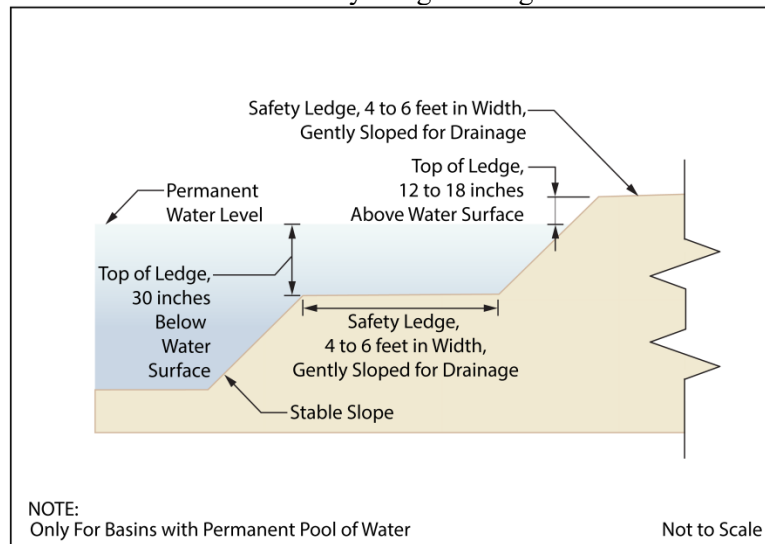

- ii. Safety ledges shall be constructed on the slopes of all new stormwater management BMPs having a permanent pool of water deeper than two and one-half feet. Safety ledges shall be comprised of two steps. Each step shall be four to six feet in width. One step shall be located approximately two and one-half feet below the permanent water surface, and the second step shall be located one to one and one-half feet above the permanent water surface. See subsection 26-1.8.E for an illustration of safety ledges in a stormwater management BMP; and
- iii. In new stormwater management BMPs, the maximum interior slope for an earthen dam, embankment, or berm shall not be steeper than three horizontal to one vertical.

D. Variance or Exemption from Safety Standard

A variance or exemption from the safety standards for stormwater management BMPs may be granted only upon a written finding by the municipality that the variance or exemption will not constitute a threat to public safety.

E. Safety Ledge Illustration

Elevation View –Basin Safety Ledge Configuration

**§26-1.9. Requirements for a Site Development Stormwater Plan:**

A. Submission of Site Development Stormwater Plan

1. Whenever an applicant seeks municipal approval of a development subject to this ordinance, the applicant shall submit all of the required components of the Checklist for the Site Development Stormwater Plan at subsection 26-1.9 .C below as part of the submission of the application for approval.
2. The applicant shall demonstrate that the project meets the standards set forth in this ordinance.

3. The applicant shall submit *{specify number}* copies of the materials listed in the checklist for site development stormwater plans in accordance with subsection 26-1.9 .C of this ordinance.

B. Site Development Stormwater Plan Approval

The applicant's Site Development project shall be reviewed as a part of the review process by the municipal board or official from which municipal approval is sought. That municipal board or official shall consult the municipality's review engineer to determine if all of the checklist requirements have been satisfied and to determine if the project meets the standards set forth in this ordinance.

C. Submission of Site Development Stormwater Plan

The following information shall be required:

1. Topographic Base Map

The reviewing engineer may require upstream tributary drainage system information as necessary. It is recommended that the topographic base map of the site be submitted which extends a minimum of 200 feet beyond the limits of the proposed development, at a scale of 1"=200' or greater, showing 2-foot contour intervals. The map as appropriate may indicate the following: existing surface water drainage, shorelines, steep slopes, soils, erodible soils, perennial or intermittent streams that drain into or upstream of the Category One waters, wetlands and flood plains along with their appropriate buffer strips, marshlands and other wetlands, pervious or vegetative surfaces, existing man-made structures, roads, bearing and distances of property lines, and significant natural and manmade features not otherwise shown.

2. Environmental Site Analysis

A written and graphic description of the natural and man-made features of the site and its surroundings should be submitted. This description should include a discussion of soil conditions, slopes, wetlands, waterways and vegetation on the site. Particular attention should be given to unique, unusual, or environmentally sensitive features and to those that provide particular opportunities or constraints for development.

3. Project Description and Site Plans

A map (or maps) at the scale of the topographical base map indicating the location of existing and proposed buildings roads, parking areas, utilities, structural facilities for stormwater management and sediment control, and other permanent structures. The map(s) shall also clearly show areas where alterations will occur in the natural terrain and cover, including lawns and other landscaping, and seasonal high groundwater elevations. A written description of the site plan and justification for proposed changes in natural conditions shall also be provided.

4. Land Use Planning and Source Control Plan

This plan shall provide a demonstration of how the goals and standards of subsections 26-1.3-1.5 are being met. The focus of this plan shall be to describe how the site is being developed to meet the objective of controlling groundwater recharge, stormwater quality and stormwater quantity problems at the source by land management and source controls whenever possible.

5. Stormwater Management Facilities Map

The following information, illustrated on a map of the same scale as the topographic base map, shall be included:

- i. Total area to be disturbed, paved or built upon, proposed surface contours, land area to be occupied by the stormwater management facilities and the type of vegetation thereon, and details of the proposed plan to control and dispose of stormwater.
- ii. Details of all stormwater management facility designs, during and after construction, including discharge provisions, discharge capacity for each outlet at different levels of detention and emergency spillway provisions with maximum discharge capacity of each spillway.

6. Calculations

- i. Comprehensive hydrologic and hydraulic design calculations for the pre-development and post-development conditions for the design storms specified in Section IV of this ordinance.
- ii. A soil report complying with the requirements in Chapter 12 of the BMP Manual shall be submitted to determine the suitability and distribution of soils present at the location of the site.

7. Maintenance and Repair Plan

The design and planning of the stormwater management facility shall meet the maintenance requirements of Section X.

8. Waiver from Submission Requirements

The municipal official or board reviewing an application under this ordinance may, in consultation with the municipality's review engineer, waive submission of any of the requirements in subsection 26-1.9. C.1 through C.6 of this ordinance when it can be demonstrated that the information requested is impossible to obtain or it would create a hardship on the applicant to obtain and its absence will not materially affect the review process.

**§26-1.10. Maintenance and Repair:**

A. Applicability

Projects subject to review as in subsection 26-1.1.C of this ordinance shall comply with the requirements of subsection 26-1.10.B and C.

B. General Maintenance

1. The design engineer shall prepare a maintenance plan for the stormwater management measures incorporated into the design of a major development.
2. The maintenance plan shall contain specific preventative maintenance tasks and schedules; cost estimates, including estimated cost of sediment, debris, or trash removal; and the name, address, and telephone number of the person or persons responsible for preventative and corrective maintenance (including replacement). The plan shall contain information on BMP location, design, ownership, maintenance tasks and frequencies, and other details as specified in Chapter 8 of the NJ BMP Manual, as well as the tasks specific to the type of BMP, as described in the applicable chapter containing design specifics.
3. If the maintenance plan identifies a person other than the property owner (for example, a developer, a public agency or homeowners' association) as having the responsibility for maintenance, the plan shall include documentation of such person's or entity's agreement to assume this responsibility, or of the owner's obligation to dedicate a stormwater management facility to such person under an applicable ordinance or regulation.
4. Responsibility for maintenance shall not be assigned or transferred to the owner or tenant of an individual property in a residential development or project, unless such owner or tenant owns or leases the entire residential development or project. The individual property owner may be assigned incidental tasks, such as weeding of a green infrastructure BMP, provided the individual agrees to assume these tasks; however, the individual cannot be legally responsible for all of the maintenance required.
5. If the party responsible for maintenance identified under B.3 above is not a public agency, the maintenance plan and any future revisions based on B.7 below shall be recorded upon the deed of record for each property on which the maintenance described in the maintenance plan must be undertaken.
6. Preventative and corrective maintenance shall be performed to maintain the functional parameters (storage volume, infiltration rates, inflow/outflow capacity, etc.) of the stormwater management measure, including, but not limited to, repairs or replacement to the structure; removal of sediment, debris, or trash; restoration of eroded areas; snow and ice removal; fence repair or replacement; restoration of vegetation; and repair or replacement of non-vegetated linings.
7. The party responsible for maintenance identified under B.3 above shall perform all of the following requirements:
  - i. Maintain a detailed log of all preventative and corrective maintenance for the structural stormwater management measures incorporated into the design of the development, including a record of all inspections and copies of all maintenance-related work orders;
  - ii. Evaluate the effectiveness of the maintenance plan at least once per year and adjust the plan and the deed as needed; and

- iii. Retain and make available, upon request by any public entity with administrative, health, environmental, or safety authority over the site, the maintenance plan and the documentation required by B.6 and B.7 above.
- iv. Obtain a stormwater management facilities Engineering Permit Application for maintenance and repairs from the City of Summit Engineering Division, and it must be renewed each year by July 1st.
- v. Ensure the Stormwater management Facilities are inspected and maintained annually by a qualified environmental stormwater management professional, engineer, or as approved by the City of Summit engineer.
- vi. Submit the stormwater management facilities inspection reports, maintenance logs, and a certificate of compliance of inspection to the City of Summit Engineer before July 1 of each year; and keep inspection logs and maintenance records for at least 5 years.
- vii. Maintenance plan obligations shall include, but are not limited to the removal of debris, sediment, trash removal, repair of structures, vegetative maintenance, restoration of eroded areas, and provide details of who is implementing the maintenance tasks. Maintenance plan must also follow O&M Manuals, manufacturer specifications, industry standards, and contain the BMP specifications.
- viii. Provide the City of Summit authority to inspect stormwater management facilities, request documentation, and enforce the code while defining penalties for noncompliance procedures which comport and align with current City codes under separate Chapters.
- ix. Provide a two year maintenance guarantee in accordance with N.J.S.A. 40:55D-53. Maintenance and inspection guidance can be found on the Department's website at:

<https://dep.nj.gov/stormwater/maintenance-guidance/>.

- 8. The requirements of subsection 26-1.10.B.3 and B.4 do not apply to stormwater management facilities that are dedicated to and accepted by the municipality or another governmental agency, subject to all applicable municipal stormwater general permit conditions, as issued by the Department.

9. Under the authorization by the conditions in Part V.F.4.a of municipality's Tier A Municipal Stormwater General Permit, the municipality must ensure adequate long-term cleaning, operation and maintenance of stormwater facilities not owned or operated by the municipality, not subject to the conditions of another NJPDES stormwater permit and which were constructed after February 7, 1984. Therefore, in the event that the stormwater management facility becomes a danger to public safety or public health, or if it is in need of maintenance or repair, the municipality shall so notify the responsible person in writing. Upon receipt of that notice, the responsible person shall have fourteen (14) days to effect maintenance and repair of the facility in a manner that is approved by the municipal engineer or his designee. The municipality, in its discretion, may extend the time allowed for effecting maintenance and repair for good cause. If the responsible person fails or refuses to perform such maintenance and repair, the municipality or County may immediately proceed to do so and shall bill the cost thereof to the responsible person. Nonpayment of such bill may result in a lien on the property.
- C. Nothing in this section shall preclude the municipality in which the major development is located from requiring the posting of a performance or maintenance guarantee in accordance with N.J.S.A. 40:55D-53

**§26-1.11. Variance from the Design and Performance standards for Stormwater Management Measures**

- A. A variance from the design and performance standards for stormwater management measures set forth in this ordinance and the municipal stormwater management plan, provided the municipal stormwater management plan includes a mitigation plan or a mitigation plan in accordance with the conditions in this Section:
1. The applicant demonstrates that it is technically impracticable to meet any one or more of the design and performance standards on-site. For the purposes of this analysis, technical impracticability exists only when the design and performance standard cannot be met for engineering, environmental, or safety reasons. The approval of a variance shall apply to an individual drainage area and design and performance standard and shall not apply to an entire site or project, unless an applicant provides the required analysis for each drainage area within the site and each design and performance standard;
  2. The applicant demonstrates that the proposed design achieves the maximum possible compliance with the design and performance standards on-site; and
  3. A mitigation project in accordance with the following is implemented.
    - i. The mitigation project may be selected from the municipal mitigation plan or may be proposed by the applicant, provided it meets the criteria in the municipal mitigation plan.
    - ii. The mitigation project shall be approved no later than preliminary or final site plan approval of the major development.
    - iii. The mitigation project shall be located in the same HUC 14 as the area of the major development subject to the variance.
    - iv. The mitigation project shall be constructed prior to, or concurrently with, the major development.

- v. The mitigation project shall comply with the green infrastructure standards at subsection 26-1.4.O.
- vi. If the variance that resulted in the mitigation project being required is from the green infrastructure standards at subsection 26-1.4.O, then the mitigation project must use green infrastructure BMPs in Table 1, and/or an alternative stormwater management measure approved in accordance with subsection 26-1.4.G that meets the definition of green infrastructure to manage an equivalent or greater area of impervious surface and an equivalent or greater area of motor vehicle surface as the area of the major development subject to the variance. Grass swales and vegetative filter strips may only be used in the mitigation project if the proposed project additionally includes a green infrastructure BMP other than a grass swale or vegetative filter strip. The green infrastructure used in the mitigation project must be sized to manage the water quality design storm, as defined at subsection 26-1.4.Q, at a minimum, and is subject to the applicable contributory drainage area limitation specified at subsection 26-1.4.G or subsection 26-1.4.O, as applicable.
- vii. A variance from the groundwater recharge standards at subsection 26-1.4.P may be granted if one of the following is met:
  - (1) The average annual groundwater recharge provided by the mitigation project must equal or exceed the average annual groundwater recharge deficit resulting from granting the variance for the major development; or
  - (2) Runoff infiltrated during the two-year storm from the mitigation project must equal or exceed the deficit resulting from granting the variance from the required infiltration of the increase in runoff volume from pre-construction to post-construction from the major development.
- viii. A variance from the stormwater runoff quality standards at subsection 26-1.4.Q may be granted if the following are met:
  - (1) The total drainage area of motor vehicle surface managed by the mitigation project(s) must equal or exceed the drainage area of the area of the major development subject to the variance and must provide sufficient TSS removal to equal or exceed the deficit resulting from granting the variance for the major development; and
  - (2) The mitigation project must remove nutrients to the maximum extent feasible in accordance with subsection 26-1.4.Q.
- ix. A variance from the stormwater runoff quantity standards at subsection 26-1.4.Q may be granted if the following are met:
  - (1) The applicant demonstrates, through hydrologic and hydraulic analysis, including the effects of the mitigation project, that the variance will not result in increased flooding damage below each point of discharge of the major development;
  - (2) The mitigation project discharges to the same watercourse and is located upstream of the major development subject to the variance; and
  - (3) The mitigation project provides peak flow rate attenuation in accordance with subsection 26-1.4.Q for an equivalent or greater area than the area of the major development subject to the variance. For the purposes of this demonstration, equivalent includes both size of the area and percentage of impervious surface and/or motor vehicle surface.

- x. The applicant or the entity assuming maintenance responsibility for the associated major development shall be responsible for preventive and corrective maintenance (including replacement) of the mitigation project and shall be identified as such in the maintenance plan established in accordance with subsection 26-1.10. This responsibility is not transferable to any entity other than a public agency, in which case, a written agreement with that public agency must be submitted to the review agency.

B. Any approved variance shall be submitted by the municipality to the county review agency and the New Jersey Department of Environmental Protection, by way of a written report describing the variance, as well as the required mitigation, within 30 days of the approval.

**§26-1.12. Penalties**

Any person(s) who erects, constructs, alters, repairs, converts, maintains, or uses any building, structure or land in violation of this ordinance shall be subject to the following penalties:

- First violation: \$1,000
- Second violation : \$2,000.
- Third violation and each additional violation: \$5,000.
- The City reserves the right to add additional fees to the fines listed above to cover any costs or expenses incurred by the City as a result of the court confirmed violation.

**§26-1.13 Severability**

Each section, subsection, paragraph, subparagraph, clause, sentence and phrase of this ordinance is declared to be an independent section, subsection, sentence, clause and phrase, and the finding or holding of any such portion of this ordinance to be unconstitutional, void, or ineffective for any cause, or reason, shall not affect any other portion of this ordinance.

This ordinance shall be in full force and effect from and after its adoption and any publication as required by law.

Dated:

I, Rosalia M. Licatase, City Clerk of the City of Summit, do hereby certify that the foregoing ordinance was duly passed by the Common Council of said City at regular meeting held on

**ORDINANCE OF THE CITY OF SUMMIT, COUNTY OF UNION, NEW JERSEY, AMENDING AND SUPPLEMENTING CHAPTER 35 OF THE CITY CODE, ENTITLED “DEVELOPMENT REGULATIONS,” SUBSECTION 35-9.2 "PROHIBITED USES" (AI DATA CENTER)**

*Ordinance Summary: The purpose of this ordinance is to amend and replace the definition of AI Data Center facilities and Computer Centers.*

**WHEREAS**, the City of Summit (the “City”) has determined that it would be appropriate to undertake amendments to align its Development Regulations with the recommendations of the City’s 2000 Master Plan and the City’s 2016 Master Plan Re-Examination Report; and

**WHEREAS**, the City’s 2000 Master Plan and the City’s 2016 Master Plan Re-Examination Report establish that the City is a small residential community with a policy of protecting neighborhoods from the intrusion of high-intensity, incompatible, or inappropriate land uses; and

**WHEREAS**, the City finds that data centers, by nature, present an intense and unique form of land use and development, posing significant challenges related to electricity consumption, noise, air quality, water use, community character, and long-term planning objectives; and

**WHEREAS**, Chapter 35 of the City Code currently regulates and prohibits AI Data Center facilities to protect the City's critical infrastructure, utility capacities, and established neighborhood character; and

**WHEREAS**, the City has determined that the existing definition of "AI Data Center" within Subsection 35-7.2 requires revision to ensure greater clarity, accurately capture evolving technological frameworks, and ensure effective enforcement of the City's development policies; and

**WHEREAS**, the proposed revisions will reduce ambiguity, promote the uniform application of the Development Regulations, and provide certainty in the regulation of property development within the City; and

**WHEREAS**, the Common Council believes that replacing the definition of “AI Data Center” and revising the definition of “Computer Center” within Development Regulations is in the best interest of the City.

**NOW, THEREFORE, BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF SUMMIT, IN THE COUNTY OF UNION AND STATE OF NEW JERSEY, AS FOLLOWS:**

**SECTION 1.** The aforementioned recitals are incorporated in their entirety, as if restated herein.

**SECTION 2.** Chapter 35-7.2 of the City Code entitled “Definitions”, is hereby amended and supplemented as follows: (Last additions in text indicated by underline; deletions by ~~strikeouts~~.)

35-7.2 Definitions.

AI DATA CENTER

“AI Data Center”, as commonly known and as sometimes referred to as “Artificial Intelligence Data Centers”, “Internet Data Centers”, or “Cloud Data Centers” (and any and all functionally equivalent but differently named uses, structures and facilities) means any building, structure, facility or connected facilities, where the principal use is the training, developing, storing, deploying, delivering or hosting Artificial Intelligence Models at scale for off-site users, such as but not limited to; “Large Language Models”, “Neural Networks”, “Machine Learning”, and or any other forms, models, categories, or types of information systems which aggregate collective computing demands from and to cloud services, video streaming, blockchain and crypto mining, artificial intelligence, virtual reality, and other internet, telecommunication, computing, data storage, maintenance, and data processing for transmission purposes. An AI Data Center is not a warehouse. A use that meets the criteria stated herein and generates a total peak power load in excess of 20MW or has a measurable and distinct impact on water utility consumption compared to other aggregate land uses shall be considered an AI Data Center. Necessary ancillary uses to an AI Data Center may include high-performance server racks or liquid cooling systems, environmental controls, fire suppression, generators, redundant power supplies and security facilities. Typical operations of an AI Data Center may include the need for separate transformers, electrical substations, and utility infrastructure that shall be considered separate uses.

A. 35-7.2 Definitions – DATA CENTER

“Data Center” – Shall mean a building, structure, or premises used for the storage, management, processing, routing, transmission, or hosting of digital data, applications, or computing services through the use of servers, networking equipment, or similar electronic infrastructure, including commercial colocation facilities, cloud computing facilities, server farms, cryptocurrency mining operations, and wholesale digital infrastructure uses, and which shall be deemed a principal use which, as set forth in 35-9.2, is prohibited in all zone districts of the City of Summit.

The term “Data Center” shall not include:

- (1) Server rooms, network facilities, or computer processing facilities that are clearly incidental and subordinate to the permitted use on the property and that are operated solely for the internal business, administrative, communications, cybersecurity, operational, or utility functions of the use/occupant.
- (2) Accessory data processing facilities operated by financial institutions, public utilities, hospitals, educational institutions, governmental agencies, research facilities, or similar entities, provided that:
  - (a) The data center does not constitute the principal use of the property.
  - (b) No portion of the facility is used for cryptocurrency mining, high density computational processing, or wholesale digital infrastructure services.
  - (c) The facility is not served by a dedicated utility transmission substation, exclusive of those uses identified #2 above and which are installed primarily for the facility.
  - (d) No dedicated electric utility substation, switching station, or comparable major electrical infrastructure shall be constructed primarily to serve the use.

B. 35-7.2 Definitions – COMPUTER CENTER. The Definition of Computer Centers is hereby amended as follows: (Last additions in text indicated by underline; deletions by ~~strikeouts~~.)

## COMPUTER CENTERS

~~“Computer Centers”, also commonly known as a “Data Center” or “Conventional Data Center” refers to a facility or portion of a facility used primarily for office, research, administrative, educational, institutional, or business support computing activities, including computer rooms, information technology support rooms, network rooms, software development spaces, data processing rooms, telecommunications rooms, or similar facilities that are accessory or subordinate to a permitted principal use on the same lot. A computer center shall be characterized by occupancy and staffing consistent with an office, research, institutional, or business support use and shall not be primarily designed or operated for the large scale housing of servers, cryptocurrency mining equipment, artificial intelligence computing equipment, cloud computing infrastructure, colocation equipment, or other high density computing systems for off-site users.~~

The term ‘Computer Center’ as utilized in the zoning regulations of the City of Summit are designed to identify those server rooms, network facilities, or computer processing facilities that are clearly incidental and subordinate to the principal permitted use on the property and that are operated solely for the internal business, administrative, communications, cybersecurity, operational, or utility functions of the principal use/occupant, and not as a ‘Data Center’ as defined herein.

**SECTION 3.** Chapter 35-9.2 Prohibited Uses: This section is hereby amended as follows: (Last additions in text indicated by underline; deletions by ~~strikeouts~~.)

35-9.2 Prohibited uses.

E. AI Data Center facilities, as defined herein, are expressly prohibited in all zones. Data Centers as defined herein are expressly prohibited as permitted use in all zone districts in the City of Summit.

**SECTION 4.** The City Clerk is directed to give notice at least ten (10) days prior to a hearing on the adoption of this Ordinance to the City of Summit Planning Board and to all other persons or entities entitled thereto pursuant to N.J.S.A. 40:55D-26 and N.J.S.A. 40:55D-64. The Planning Board is directed to make and transmit to the City Council, within thirty-five (35) days after referral, a report including identification of any provisions in the proposed Ordinance that are inconsistent with the City Master Plan and recommendations concerning any inconsistencies and any other matter as deemed appropriate.

**SECTION 5.** If any section, paragraph, subdivision, clause or provision of this Ordinance shall be judged invalid, such adjudication shall apply only to that section, paragraph, subdivision, clause or provision, and the remainder of this Ordinance shall be deemed valid and effective.

**SECTION 6.** All ordinances or parts of ordinances inconsistent with or in conflict with this Ordinance are hereby repealed to the extent of such inconsistency.

**SECTION 7.** This Ordinance shall take effect according to law.

(Last additions in text indicated by underline; deletions by ~~strikeouts~~.)

City Clerk

Resolution (ID # 12592)  
July 7, 2026

### CERTIFY 2025 AUDIT REVIEW

WHEREAS, N.J.S.A. 40A: 5-4 requires the governing body of every local unit to have made an annual audit of its books, accounts and financial transactions, and

WHEREAS, the Annual Report of Audit for the year 2025 has been filed by a Registered Municipal Accountant with the Municipal Clerk pursuant to N.J.S.A. 40A: 5-6, and a copy has been received by each member of the governing body; and

WHEREAS, N.J.S.A. 52:27BB-34 authorizes the Local Finance Board of the State of New Jersey to prescribe reports pertaining to the local fiscal affairs; and

WHEREAS, the Local Finance Board has promulgated N.J.A.C. 5:30-6.5, a regulation requiring that the governing body of each municipality shall, by resolution, certify to the Local Finance Board of the State of New Jersey that all members of the governing body have reviewed, as a minimum, the sections of the annual audit entitled "Comments and Recommendations; and

WHEREAS, the members of the governing body have personally reviewed, as a minimum, the Annual Report of Audit, and specifically the sections of the Annual Audit entitled "Comments and Recommendations, as evidenced by the group affidavit form of the governing body attached hereto; and

WHEREAS, such resolution of certification shall be adopted by the Governing Body no later than forty-five days after the receipt of the annual audit, pursuant to N.J.A.C. 5:30-6.5; and

WHEREAS, all members of the governing body have received and have familiarized themselves with, at least, the minimum requirements of the Local Finance Board of the State of New Jersey, as stated aforesaid and have subscribed to the affidavit, as provided by the Local Finance Board; and

WHEREAS, failure to comply with the regulations of the Local Finance Board of the State of New Jersey may subject the members of the local governing body to the penalty provisions of N.J.S.A. 52:27BB-52, to wit:

A local officer or member of a local governing body who, after a date fixed for compliance, fails or refuses to obey an order of the Director (Director of Local Government Services), under the provisions of this Article, shall be guilty of a misdemeanor and, upon conviction, may be fined not more than one thousand dollars (\$1,000.00) or imprisoned for not more than one year, or both, in addition shall forfeit his office.

NOW, THEREFORE BE IT RESOLVED, That the Common Council of the City of Summit, hereby states that it has complied with N.J.A.C. 5:30-6.5 and does hereby submit a certified copy of this resolution and the required affidavit to said Board to show evidence of said compliance.

Dated: July 7, 2026

I, Rosalia M. Licatase, City Clerk of the City of Summit, do hereby certify that the foregoing resolution was duly adopted by the Common Council of said city at a regular meeting held on Tuesday evening, July 7, 2026.

## RESOLUTION (ID # 12592)

---

DOC ID: 12592

TO: Mayor and Common Council  
FROM: Jen Kobliska, Finance Director  
DATE:

### SUMMARY

Electronic copies of the 2025 Audit Report will be emailed.

Paper copies are available in the Treasurer's office.

There were two recommendations pertaining to municipal court. One for monthly reports and one for their bank deposit filing processes.

This resolution certifies to the Local Finance Board that you have read the appropriate sections of the audit. You will then be asked to sign an affidavit indicating you have read – at minimum – the **Comments and Recommendations** section of the audit document.

**APPROVE 2025 AUDIT CORRECTIVE ACTION PLAN**

WHEREAS, N.J.S.A. 40A: 5-4 requires the governing body of every local unit to have made an annual audit of its books, accounts and financial transactions, and

WHEREAS, as promulgated by the Local Finance Board, the governing body certified the 2025 Audit on July 7, 2026, and

WHEREAS, the 2025 Audit Report under “Recommendations,” advises that “A Corrective Action Plan, which outlines actions that the City of Summit will take to correct the findings listed in the plan, will be prepared in accordance with federal and state requirements,” and

WHEREAS, since the Corrective Action Plan has now been prepared and provided, it is necessary to obtain Council approval of same.

NOW, THEREFORE BE IT RESOLVED BY THE COMMON COUNCIL OF THE CITY OF SUMMIT:

That it does hereby approve the 2025 Audit Corrective Action Plan prepared by the Chief Financial Officer.

Dated: July 7, 2026

I, Rosalia M. Licatase, City Clerk of the City of Summit, do hereby certify that the foregoing resolution was duly adopted by the Common Council of said City at a regular meeting held on Tuesday evening, July 7, 2026.

## **RESOLUTION (ID # 12615)**

DOC ID: 12615

TO: Mayor and Common Council

FROM: Jen Kobliska, Finance Director

DATE: June 10, 2026

### SUMMARY

The 2025 Audit Report includes two recommendations, both pertaining to the Municipal Court.

The first finding was based on reviewing the 2025 Monthly Management Reports from New Providence Municipal Court. It revealed significant exceptions in various case management categories. In other words, items didn't meet requirements or contained errors in several areas, not just an isolated incident. It is recommended to implement a procedure to identify these issues and resolve them daily/monthly.

The second finding was found during a review of the Courts financial records. It was noted that the bank deposit slips were not attached to the corresponding Automated Traffic System daily deposits nor Criminal Journals. It is recommended to implement a procedure in which each deposit is accompanied by the bank deposit slip.

Subject: 2025 CORRECTIVE ACTION PLAN

The 2025 Audit contains two recommendations. A Corrective Action Plan outlining steps to be taken to address these findings follows. The resolution approving this plan will be presented at the July 7, 2026 Council meeting. A copy of this plan will be on file and available for public inspection no later than July 7, 2026, which follows directives from the Division of Local Government Services.

*Recommendation 1:* “The Municipal Court should develop and implement procedure(s) to identify and resolve the various case management exceptions.” Finance is working with New Providence Municipal Court to ensure that a procedure is put into place to assist in identifying and resolving various case management exceptions.

*Recommendation 2:* “The Municipal Court should implement procedures to attach validated bank deposit slips directly to each ATS Daily Batch Report and Criminal Report.” Finance is working with New Providence Municipal Court to improve their daily deposit records by attaching bank deposit slips to ATS batches and Criminal report batches.

Should you have any comments or questions, please feel free to contact me.

### AMEND EMERGENCY PURCHASING PROCEDURE CHAIN OF COMMAND

WHEREAS, N.J.S.A. 40A:11-6 of the Local Public Contracts Law permits local contracting units to use emergency purchasing procedures, and, pursuant to corresponding Local Public Contracts Law rules adopted by the State's Division of Local Government Services on December 4, 2000, the governing body of each contracting unit shall adopt rules to ensure that there are written procedures for determining and confirming the existence of an emergency, and

WHEREAS, according to N.J.A.C. 5:34-6.1(b) such rules or regulations shall include such provisions that ensure that, if initially designated individuals are not available, there is a clear chain of command to ensure that there are always appropriate individuals to make such decisions, and

WHEREAS, on June 18, 2002 the City of Summit Common Council authorized Resolution #29780 establishing the City's emergency contract authorization procedure and chain of command, and

WHEREAS, it is now prudent to revise the chain of command as the City Administrator is also the City Treasurer, which are currently the first two City personnel authorized to approve emergency purchases.

NOW, THEREFORE, BE IT RESOLVED BY THE COMMON COUNCIL OF THE CITY OF SUMMIT, COUNTY OF UNION, NEW JERSEY:

That when an emergency arises requiring certain purchases to be made pursuant to emergency purchasing procedures, the following is adopted as the updated Chain of Command for the Policy Governing Emergency Purchasing Procedures and Procedure for the Declaration of an Emergency for the City of Summit.

In the City Administrator's absence, the chain of command for adherence to the requirements shall be:

1. In case of a declared emergency, the Emergency Management Coordinator
2. Director of Finance or Chief Financial Officer
3. Assistant Treasurer
4. Director of Community Services
5. Superintendent of Public Works
6. Fire Chief
7. Police Chief
8. City Clerk

FURTHER RESOLVED that any existing chain of command for emergency contract/purchase procedures is hereby repealed.

Dated: July 7, 2026

I, Rosalia M. Licatase, City Clerk of the City of Summit, do hereby certify that the foregoing resolution was duly adopted by the Common Council of said City at a regular meeting held on Tuesday evening, July 7, 2026.

City Clerk

# Memo

**To: Mayor and Council**  
**From: Tammie Baldwin, City Administrator/City Treasurer**  
**Date: 6/16/26**  
**Re: Emergency Purchases- Chain of Command for Approval**  
**CC: Director of Finance, Jennifer Kobliska**  
**Assistant Treasurer, Leiza Garcon**

The Common Council passed the resolution establishing a procedure and chain of command regarding emergency purchases for goods and/or services on June 18, 2002, which included an approval chain of command in the absence of the City Administrator. As the City Administrator is also currently the City Treasurer, the position which is the next on the chain of command for approval, I propose that the emergency procedure approval chain of command be revised as follows:

In the City Administrator's absence, the chain of command for adherence to the requirements shall be:

1. City Administrator, or in the case of a declared emergency, the Emergency Management Coordinator
2. Director of Finance or Chief Financial Officer
3. Assistant Treasurer
4. Director of Community Services
5. Superintendent of Public Works
6. Fire Chief
7. Police Chief
8. City Clerk

Resolution (ID # 12623)  
July 7, 2026

**RESOLUTION AUTHORIZING SUBMISSION OF THE 2026-2027 PARTICIPATION FORM  
FOR THE GARDEN STATE COMMUNITY ENERGY COOPERATIVE ENERGY  
AGGREGATION PROGRAM**

WHEREAS, the State of New Jersey has enacted a regulatory scheme designed to encourage and support energy aggregation for the purchase of electric utility service (N.J.A.C. 14:4-6.1 et seq.); and

WHEREAS, by Ordinance #25-3335, the City of Summit established an energy aggregation program, the purpose of which is to provide a savings to the City of Summit's residential customers on their electrical bills; and

WHEREAS, by Resolution No. 41541, the City of Summit joined the Garden State Community Energy Cooperative as a participating member of the cooperative pricing system (DCA ID# 290GSCEC); and

WHEREAS, Concord Energy Services ("CES") serves as the energy consultant for the Garden State Community Energy Cooperative; and

**WHEREAS**, at the direction of the Borough of Lincoln Park, the Lead Agent for the Garden State Community Energy Cooperative, CES is preparing a Request for Proposals ("RFP") to solicit participation by licensed electric power suppliers in an online auction in calendar year 2026 and/or 2027, for the supply of electric power to residential customers in the Garden State Community Energy Cooperative, and an Agreement for Provision of Energy Supply Services ("Supply Agreement") for the prevailing bidder to execute with the Lead Agency for the Garden State Community Energy Cooperative; and

**WHEREAS**, CES has requested participating members of the Garden State Community Energy Cooperative, including the City of Summit, to complete and return a Participation Form which indicates the City of Summit's decision to be included in or excluded from the online auction date in 2026 and/or 2027.

NOW, THEREFORE, BE IT RESOLVED BY THE COMMON COUNCIL OF CITY OF SUMMIT, COUNTY OF UNION, NEW JERSEY, AS FOLLOWS:

1. The completed Participation Form for the 2026-2027 energy auction(s) for the Cooperative Pricing System known as the Garden State Community Energy Cooperative (GSCEC) (DCA ID #290GSCEC), of which the City of Summit is a participating member, is required from each participating member prior to the bid release for any energy auction for the GSCEC.
2. The City Administrator/Chief Financial Officer, or other municipal officer(s) be and hereby are authorized and directed to complete, sign and submit the GSCEC 2026-2027 Participation Form to Concord Energy Services prior to close of business on Friday, July 31, 2026.

I, Rosalia M. Licatese, City Clerk of the City of Summit, do hereby certify that the foregoing resolution was duly adopted by the Common Council of said City at a regular meeting held on Tuesday evening, July 7, 2026.

City Clerk

**GARDEN STATE COMMUNITY ENERGY COOPERATIVE (GSCEC)  
COMMUNITY ENERGY AGGREGATION  
2026/2027 BID PROCESS PARTICIPATION RESPONSE FORM**

**INSTRUCTIONS:** Complete this form and return to Concord Energy Services by email to the attention of Austin Sears at [asears@concord-engineering.com](mailto:asears@concord-engineering.com). You will receive an email confirmation that your form has been received.

**STEP 1: CHECK THE APPROPRIATE BOX BELOW**

**YES**, our Local Government Entity would like to participate in this year's Garden State Community Energy Cooperative (GSCEC) bid and/or extension pricing for electricity supply service on behalf of our residential community. We understand that the bid and/or extension pricing will only be accepted by the Lead Agency and awarded to a third-party supplier if the resulting price provides a savings compared to the JCP&L Price to Compare at the time of the bid. The service period for the awarded pricing will not exceed twenty-four (24) months.

**NO**, we respectfully decline to participate in this year's GSCEC Program on behalf of our residents.

**STEP 2: COMPLETE THE FOLLOWING (all fields required, please write legibly):**

Entity and County: City of Summit / Union County

Contact Name: Tammie Baldwin

Contact Position: City Administrator/Chief Financial Officer

Contact Email Address: tbaldwin@cityofsummit.org

Contact Phone: 908-522-5100

Address: 512 Springfield Ave.  
Summit, NJ 07901

**CONTINUE TO NEXT STEP ONLY IF "YES" IS SELECTED ABOVE.**

**STEP 3: SIGNATURE OF AUTHORIZED REPRESENTATIVE:**

*By signing this Participation Form, I hereby confirm that the entity I represent is committed to participating in the Garden State Community Energy Cooperative (GSCEC) bid(s) and/or extension for the 2026-2027 residential electricity supply service on behalf of our residential community. We understand and acknowledge that, upon the successful bid award, our Local Government Entity will be contractually bound to the terms of the resulting master agreement and/or addendum between the Lead Agency and the winning bidder.*

*We further understand that the Lead Agency will only execute an agreement and/or addendum binding our Local Government Entity if the bid price awarded is lower than the current JCP&L Price to Compare at the time of the auction/bid and results in a savings for the residential community. Following the bid/extension award, we will pass a Resolution to formalize our commitment to the process and to approve the terms of the agreement/addendum, including but not limited to the bid price, supplier, and contract service dates.*

## **RESOLUTION (ID # 12428)**

DOC ID: 12428

TO: Mayor and Common Council

FROM: Aaron Schrager, Director - Division of Engineering & Public Works

DATE: February 10, 2026

### **SUMMARY**

Ten (10) bids were received and opened on Thursday, April 16, 2026 at 11:00 am in the Council Chambers for the Repair and Preventative Maintenance of the Tier Garage Parking Structure Project. Eight (8) of the bids were determined to be responsive. The submitted lowest responsible bidder was Sealcrete Contracting, LLC of 272 Dunns Mill Road, Bordentown, NJ 08505 of \$3,275,750.00. Sealcrete has not worked for the City before, but positive feedback was received from their references.

The scope of work includes the overhaul of the existing Tier Garage behind Springfield Avenue focusing primarily on structural repairs, drainage additions, waterproofing, and joint repair.

The lowest responsible submitted bid is below the engineering estimate and funding is available from the following accounts:

- C-08-33-051-000-200 - 2025 Capital Parking Account - \$2,420,506.66
- C-08-33-085-000-200 - 2026 Capital Parking Account - \$855,243.34

Based on the above, I recommend awarding a contract to Sealcrete Contracting, LLC of 272 Dunns Mill Road, Bordentown, NJ 08505 of \$3,275,750.00.

## AUTHORIZE COSTA RICAN CONSULAR SERVICES EVENT ON CITY PROPERTY

WHEREAS, Sector 011 – Yo Soy Costa Rica (“Yo Soy Costa Rica”) is a non-profit organization dedicated to cultural representation, outreach, and support for members of the Costa Rican community throughout the tri-state area; and

WHEREAS, Yo Soy Costa Rica has requested the assistance and coordination of the Summit Police Department in facilitating local access to Costa Rican consular services for residents and community members who may benefit from such services; and

WHEREAS, providing convenient access to consular services promotes civic engagement, supports community members in obtaining important governmental services and enhances the City's commitment to serving its diverse population; and

WHEREAS, a proposed date for the event is Friday, August 7, 2026; and

WHEREAS, the Chief of Police is seeking authorization to coordinate with appropriate City departments and department heads to identify and secure the most suitable City-owned property to accommodate the operational and logistical needs of the event; and

WHEREAS, public outreach and notification regarding the availability of consular services may be conducted through City communication channels and other traditional means of community engagement.

NOW, THEREFORE, BE IT RESOLVED BY THE COMMON COUNCIL OF THE CITY OF SUMMIT, COUNTY OF UNION, NEW JERSEY, AS FOLLOWS:

1. It hereby authorizes the Summit Police Department to coordinate with Sector 011 – Yo Soy Costa Rica regarding the planning and implementation of a Costa Rican Consular Services Event within the City of Summit.
2. The Chief of Police, or his designee, is authorized to work collaboratively with other City departments to determine an appropriate City-owned facility or property for the event, subject to operational requirements and availability.
3. The event is anticipated to be held on Friday, August 7, 2026, or on another mutually agreeable date.
4. The Chief of Police shall advise the City Clerk of the location of the event, to ensure that no scheduling conflicts exist.

Dated: July 7, 2026

I, Rosalia M. Licatase, City Clerk of the City of Summit, do hereby certify that the foregoing resolution was duly adopted by the Common Council of said City at a regular meeting held on Tuesday evening, July 7, 2026.

## MEMORANDUM

To: Dr. Elizabeth Fagan, Mayor  
 Tammie Baldwin, City Administrator  
 Claire Toth, Council President  
 Michelle Kamlanson, Safety & Health Committee Member

CC: Rosemarie Licatase - City Clerk

From: Chief Ryan Peters 

Re: Resolution Request

Date: June 10, 2026

---

A resolution is respectfully requested for presentation at the July 7, 2026, Common Council Meeting with regard to the Summit Police Department coordinating with **Sector 011 – Yo Soy Costa Rica**, a non-profit organization dedicated to cultural representation and support for the Costa Rican community in the tri-state area, to provide local access to consulate services (see attached memo for details).

As stated in the memo, a potential date for the event is Friday, August 7, 2026. If approved, the police department would work with other department heads to determine which City-owned property would best suit their operational needs.

Advertising for the service can be done through City media outlets, local faith-based and non-profit organizations, as well as traditional means of local communication (community partners, posters, etc).

Thank you in advance for your consideration.

# SUMMIT POLICE DEPARTMENT

## MEMORANDUM

To: Chief Peters  
 From: D/Sgt Garita *AG*<sup>23</sup>  
 Re: Costa Rica Consulate request for City Hall use  
 Date: June 10, 2026

Chief,

On June 9th, 2026, I was contacted by a member of the Costa Rican consulate requesting the use of City Hall. They have started a new "Mobile Costa Rican Consulate" and, due to our city's large Costa Rican population, wish to hold a one-day event in town. The purpose of the event is to provide services offered by the consulate, including:

- Identification cards
- Birth certificates
- Travel authorization for minors
- Several other government services that are provided by the Consulate

This is intended to provide community members with the necessary services without having to travel to New York City, where their offices are located. They have already held similar events in Trenton and Prospect Park, both with large turnouts. They shared photos of the event, including the required space, with me via e-mail, which I can share with you if needed. They provided a possible date of Friday, August 7, from 1000 to 1800, but were open to alternatives if space is not available that day.

I advised them I would escalate the request through the proper channels, as I'm not sure who authorizes the use of City Hall property. Thank you for your attention to the matter, and feel free to reach out if you need anything else from me.

Attachment: Memo - Resolution ID # 12617\_Consulate Services (12617 : Authorize Costa Rican Consulate Services Event)

Bound Brook, New Jersey, United States

**June 10, 2026**

Detective Sergeant Ruddy Garita  
Summit Police Department  
512 Springfield Ave  
Summit, NJ 07901

**Dear Detective Sergeant Garita,**

Through this letter, **Sector 011 – Yo Soy Costa Rica**, a **non-profit organization** dedicated to cultural representation and support for the Costa Rican community in the tri-state area, **is organizing the visit of the Costa Rican Mobile Consulate to the City of Summit, with the intention of assisting the community with their consular procedures**. For this reason, we respectfully request **authorization to use the facilities of Summit City Hall**, if possible, on **Friday, August 7, 2026, from 10:00 a.m. to 6:00 p.m.**

The purpose of this event is to provide essential consular services to Costa Rican citizens residing in New Jersey. The services to be offered include:

- Costa Rican identity cards
- Certificates of life
- Electoral address change
- Criminal background check requests
- Registration of births, deaths, and marriages
- Travel authorization for minors
- Notarial services, including powers of attorney, authentications, and other notarial documents

We are committed to complying with all safety guidelines, facility rules, and any additional requirements your department may consider necessary. We will coordinate all logistical aspects in advance to ensure an orderly and respectful use of the space.

We sincerely appreciate your attention and support for this community initiative, which strengthens access to essential services and promotes the well-being of our citizens.

Sincerely,

**Mariluz Cerdas**  
**Presidente**

Resolution (ID # 12646)  
July 7, 2026

**A RESOLUTION DESIGNATING THE SUMMIT FAMILY AQUATIC CENTER AS A COOLING STATION DURING ACTIVATION OF THE CITY'S EMERGENCY HEAT PLAN**

WHEREAS, periods of excessive heat can pose significant health risks to residents, particularly older adults, young children, individuals with underlying medical conditions, and others who may lack access to adequate cooling; and

WHEREAS, the City of Summit is committed to protecting the health, safety, and welfare of its residents by providing access to cooling facilities during periods of extreme heat; and

WHEREAS, the Summit Family Aquatic Center provides a safe and appropriate location for residents to seek relief from excessive heat; and

WHEREAS, the Common Council of the City of Summit finds it to be in the best interest of the public to designate the Summit Family Aquatic Center as an official cooling station when emergency heat conditions warrant its activation.

NOW, THEREFORE, BE IT RESOLVED BY THE COMMON COUNCIL OF THE CITY OF SUMMIT, COUNTY OF UNION, STATE OF NEW JERSEY, THAT:

1. The Summit Family Aquatic Center is hereby designated as an official City of Summit cooling station during periods when the City of Summit Office of Emergency Management ("Summit OEM") activates its Emergency Heat Plan, and requests or authorizes the City to open a cooling station.
2. Upon activation of the Emergency Heat Plan, the Summit Family Aquatic Center shall be open to the general public, without charge, between the hours of 5:00 p.m. and 8:00 p.m., unless otherwise modified by the City Administrator based upon operational or public safety considerations.
3. Free public access under this Resolution shall be limited solely to those periods during which the Emergency Heat Plan remains in effect and shall terminate upon deactivation of the plan.
4. The City Administrator, in consultation with the Director of Community Programs, the Office of Emergency Management, and other appropriate officials, is authorized to implement procedures necessary to administer this Resolution, including determining operational protocols, staffing requirements, public notification, and any reasonable limitations necessary to ensure the safe operation of the facility.
5. The City reserves the right to suspend or modify cooling station operations due to facility maintenance, weather conditions, public safety concerns, or other emergency circumstances that make operation of the Summit Family Aquatic Center impracticable, and may designate an alternate cooling station if necessary.
6. This Resolution shall take effect immediately upon adoption and shall remain in effect unless amended or repealed by the Common Council.

Dated: July 7, 2026

I, Rosalia M. Licatase, City Clerk of the City of Summit, do hereby certify that the foregoing resolution was duly adopted by the Common Council of said City at a regular meeting held on Tuesday evening, July 7, 2026.

City Clerk

**RESOLUTION (ID # 12646)**

DOC ID: 12646

TO: Mayor and Common Council  
FROM: Mark Ozoroski, Director - DCP  
DATE: June 30, 2026

**SUMMARY**

The Department of Community Programs prides itself on its ability to meet the needs of all Summit residents. This year, the DCP has worked with the Housing Authority and GRACE to identify children in need of camp and pool memberships.

Historically, there have been years where, during heatwaves, (*defined as three forecasted days of temperatures over 90 degrees*) where the Family Aquatic Center has opened for all Summit residents as an additional option to serve as a cooling station, which our Summit Office of Emergency Management designates during all heatwaves.

The DCP recognizes the importance in establishing a procedure to ensure the needs of all residents are met. We respectfully request to formalize the process to have the SFAC serve as a free cooling station for all Summit residents during heatwaves for the hours of 5-8pm.

The Aquatic Center would be permitted to be opened as a cooling station beginning on the first forecasted night of the heatwave and terminating on the final night of the heatwave.

This will allow all residents the opportunity to enjoy the aquatic center, barrier free, while ensuring a minimal impact to regular membership operations. Residents will be required to provide the gate attendant with proof of Summit residency.

The hour of 5pm has been selected as camp vacates the aquatic center between 3:30 and 4:00 pm and it is important to ensure that all of our staff meet necessary meal break and lunch requirements. This gap will also ensure that our maintenance staff is able to reset and maintain the facility at the exemplary level our members are accustomed to.

This will come at a minimal financial impact to the facility, we will plan to schedule up to two extra guards per 5-8pm shift.

Additionally, the impact to members shall be minimal. On a case by case basis, the DCP requests

to be able to have the jurisdiction to cancel float nights during a heatwave if attendance levels are unsafe. Float night brings its own challenges to the facility and it would be prudent to allow for this exclusion.

Dated: July 7, 2026

I, Rosalia M. Licatase Clerk of the City of Summit, do hereby certify that the foregoing resolution was duly adopted by the Common Council of said City at a regular meeting held on Tuesday evening, July 7, 2026.

City Clerk

Resolution (ID # 12355)  
July 7, 2026

**AUTHORIZE PAYMENT OF BILLS AND PAYROLL - \$5,440,090.68**

BE IT RESOLVED BY THE COMMON COUNCIL OF THE CITY OF SUMMIT:

That the proper officers of the City be and they are hereby authorized and directed to draw checks for a total of **\$3,438,241.26** for the payment of the itemized bills listed on the following Schedule "A" which have been approved by several committees and the President of the Common Council and which are made a part of the minutes of this meeting. Additionally, as directed by the City Auditors, the most recent payrolls are attached hereto in the gross amount of **\$1,045,797.57** and **\$956,051.85**.

Dated: July 7, 2026

I, Rosalia M. Licatase, City Clerk of the City of Summit, do hereby certify that the foregoing resolution was duly adopted by the Common Council of said City at a regular meeting held on Tuesday evening, July 7, 2026.

City Clerk

Re: Notice of Introduction of Ordinance 2756-26

Pursuant to the requirements of the Municipal Land Use Law, I transmit herewith, by e-mail with confirmation that e-mail was delivered, a copy of the following ordinances entitled:

ORDINANCE 2756-26 - ORDINANCE AMENDING AND SUPPLEMENTING THE TOWNSHIP OF MILLBURN DEVELOPMENT REGULATIONS AND ZONING ORDINANCE TO REVISE THE DEFINITION OF FLOOR AREA RATIO, RESIDENTIAL

The above referenced ordinance in full is attached. The ordinance was introduced at a Regular Meeting of the Township Committee of the Township of Millburn held on June 18, 2026 and will be considered for final passage and adoption at public hearings held on August 11, 2026 at 7:00 p.m. at the Millburn Township Education Center, 434 Millburn Avenue, Millburn, New Jersey. Millburn Town Hall will open for this meeting beginning at 6:45PM and details on the meeting and agenda may be located at town hall, on our website https://www.twp.millburn.nj.us/AgendaCenter or by contacting the Municipal Clerk's Office at 973-564-7092.

Sincerely,

Christine Gatti

Christine A. Gatti, RMC
Municipal Clerk

Communication: Millburn Twp - 2756-26 Pending Zoning Ordinance, Public Hearing August 11, 2026 (Notices)

TOWNSHIP OF MILLBURN  
ORDINANCE NO. 2756-26

ORDINANCE AMENDING AND SUPPLEMENTING THE TOWNSHIP OF MILLBURN DEVELOPMENT  
REGULATIONS AND ZONING ORDINANCE TO REVISE THE DEFINITION OF FLOOR AREA RATIO,  
RESIDENTIAL

**WHEREAS**, the Township Committee has determined that the Township’s existing definition of FLOOR AREA RATIO, RESIDENTIAL should be clarified to establish a more objective and consistent standard for measuring residential floor area; and

**WHEREAS**, the Township Committee further finds that the current residential floor area ratio definition may create ambiguity in the measurement of upper-level floor area beneath sloping roofs and in the treatment of double-height interior spaces, which can result in uncertainty in zoning administration and development review; and

**WHEREAS**, the Township Committee finds that a clear and uniform residential floor area ratio standard will assist in preserving neighborhood character and ensuring that new construction and additions remain compatible with the scale and form of established residential development; and

**WHEREAS**, the Township of Millburn Master Plan Reexamination and Update, adopted December 19, 2018, establishes goals and objectives to guide land use and development within the Township; and

**WHEREAS**, Goal 1 of the Master Plan seeks to “Encourage appropriate land uses that promote the character of the Township as a small suburb of the highest quality,” and Objective 1.01 seeks to “Protect the character of established residential neighborhoods and encourage land use and development at an appropriate scale and density”; and

**WHEREAS**, the Township Committee finds that amendment of the definition of FLOOR AREA RATIO, RESIDENTIAL will improve clarity in the development review process, promote uniform administration of the zoning ordinance, preserve neighborhood character, and advance the Township’s land use objectives; and

**NOW, THEREFORE, BE IT ORDAINED** by the Township Committee of the Township of Millburn, in the County of Essex and State of New Jersey, as follows:

Section 1. Article 3, Definitions, § DRZ 301, Words and Phrases Defined, is hereby amended as follows:

301.22. FLOOR AREA RATIO, RESIDENTIAL — The sum of the area of all floors of a building or structure, measured using the outside dimensions of the exterior walls, compared to divided by the total lot area. The area of all floors shall be computed by using the outside dimension of the exterior walls of the building or structure. Floor area shall include private garages and shall not include basements. Where cathedral, vaulted, or elevated other open ceiling space above a lower floor provides a floor-to-ceiling height equal or greater than of 16 feet or greater, the floor area of such space shall be doubled in calculation of the floor area the lower floor directly beneath such open ceiling space shall be counted twice in the floor area ratio calculation. ~~Such computation shall not include basements nor floor area of that part of any room where the ceiling is less than seven feet. Such calculation shall include private garages.~~ Deviation from this standard shall require variance relief under MLUL, N.J.S.A. 40:55D-70(d)(4).

Section 2. Repealer. All ordinances or parts of ordinances contrary to or inconsistent with the provisions of this Ordinance are hereby repealed to the extent of such conflict or inconsistency.

Communication: Millburn Twp - 2756-26 Pending Zoning Ordinance, Public Hearing August 11, 2026 (Notices)

Section 3. Severability. Each section, subsection, paragraph, sentence, clause and phrase of this Ordinance is declared to be an independent section, subsection, sentence, clause and phrase. If any portion of this Ordinance, or its application to any person or circumstances, shall be adjudged or otherwise determined to be invalid, unconstitutional, preempted, void, or ineffective for any clause or reason, such determination shall not affect the remaining provisions of this Ordinance, and the application of such remaining provisions shall not be affected thereby and shall remain in full force and effect, and to this end, the provisions of this Ordinance are severable.

Section 4. Effective Date. This Ordinance shall take effect immediately upon final passage and publication according to law.

Section 5. Prior actions. All actions of the Township of Millburn taken prior to the date of adoption hereof contemplated by this Ordinance are hereby ratified and approved.

Section 6. Codification. This Ordinance may be renumbered for codification purposes.

Section 7. The Township Clerk is hereby authorized and directed to forward this ordinance to the Planning Board for its review and comment as authorized by the Law.

Section 8. The Township Clerk is hereby authorized and directed to provide such notice and publication of this matter so as to permit the conduct of all public hearings as are required by the Law.

Section 9. The Township Clerk is hereby authorized and directed to forward this ordinance to the Essex County Planning Board after final adoption, as provided by the Law.

Ordinance 2756-26

**Subject:** Township of Springfield Ordinance 2026-14 (INTRO)  
**Attachments:** 20260625155159921.pdf

Good morning,

Please find the attached Land Use Ordinance 2026-14, which the Springfield Township Committee reintroduced and approved on first reading during their regular meeting on Tuesday, June 23, 2026.

The final reading is scheduled for Tuesday, July 14, 2026, at 7:00 PM at the Springfield Municipal Building, located at 100 Mountain Avenue, Springfield, New Jersey.

Best regards,

Maureen Connell, RMC  
 Confidential Administrative Assistant  
 Deputy Township Clerk  
 Township of Springfield  
 100 Mountain Avenue  
 Springfield, NJ 07081  
 973-912-2202

Communication: Springfield Township - Pending Land Use Ordinance, public hearing on July 14, 2026 (Notices)

**Explanation: This ordinance amends the land use provisions set forth in Chapter 35 of the Township Code by permitting car washes as a conditional use within the Highway Commercial (H-C) Zone District pursuant to §35-41 (Conditional Uses), thereby amending Appendix A, Schedule of Zoning Limitations of Chapter 35 to include car washes as a permitted conditional use within the Highway Commercial (H-C) Zone District, establishing specific conditional use standards for car washes within §35-41.2 (Specific Requirements), and adding a definition of a “car wash” within §35-7 (Definitions).**

**TOWNSHIP OF SPRINGFIELD  
ORDINANCE NO. 2026-14**

**WHEREAS**, the intent and purpose of this ordinance is to permit car washes as a conditional use within the Highway Commercial (H-C) Zone District, establish specific conditional use standards for car washes, and add a definition of a “car wash” within Chapter 35 of the Township Code; and

**WHEREAS**, car washes are not presently defined or permitted as a conditional use within any zone district within the Township Code; and

**WHEREAS**, the Highway Commercial (H-C) Zone District currently permits automobile service stations, restaurants, motels, automobile sales, lease and service uses, automobile rental agencies, cannabis businesses, and quasi-public uses as conditional uses; and

**WHEREAS**, the Highway Commercial (H-C) Zone District is intended to accommodate a range of regional commercial and highway-oriented uses serving both Township residents and the traveling public along the Route 22 corridor; and

**WHEREAS**, permitting car washes as a conditional use within the H-C Zone District will provide additional commercial services to residents, employees, and visitors within the Township; and

**WHEREAS**, adding car washes as a permitted conditional use in the Highway Commercial (H-C) Zone District will further support continued economic development along the Route 22 corridor; and

**WHEREAS**, defining “car wash” and establishing conditional use standards for car washes will promote appropriate site planning and compatibility with adjacent properties and nearby land uses; and

**WHEREAS**, adding car washes as a permitted conditional use in the Highway Commercial (H-C) Zone District will not substantially impact surrounding properties or the surrounding Highway Commercial (H-C) Zone District, nor impair the intent and purpose of the Township’s Zone Plan and Master Plan; and

Communication: Springfield Township - Pending Land Use Ordinance, public hearing on July 14, 2026 (Notices)

NOW, THEREFORE, BE IT ORDAINED by the Township Committee of the Township of Springfield, County of Union, State of New Jersey, that the Revised General Ordinances of the Township of Springfield are amended as set forth below:

SECTION I

Chapter 35 (Land Use), Article III (Definitions) is supplemented and amended only to add the following to Section 35-7 (Definitions and Descriptions):

§ 35-7.

.....

Car Wash - Any building or premises used for washing motor vehicles.

.....

SECTION II

Chapter 35 (Land Use), Appendix A is supplemented and amended to add car washes as a permitted conditional use only within the Highway Commercial (H-C) Zone District:

§ 35-Appendix A.

.....

	G-C General Commercial		H-C Highway Commercial	
.....				
Conditional Uses Permitted	1.	Automobile service station	1.	Automobile service station
	2.	Restaurant	2.	Restaurant
	3.	Billboards	3.	Motel
	4.	Quasi-public use	4.	Automobile sales, lease and service
	5.	Private and parochial schools	5.	Automobile Rental Agency
			6.	Cannabis Business
			7.	Quasi-public use
			<u>8.</u>	<u>Car Washes</u>

Communication: Springfield Township - Pending Land Use Ordinance, public hearing on July 14, 2026 (Notices)

.....

### SECTION III

Chapter 35 (Land Use), Article VII (Exceptions and Modifications) is supplemented and amended only to add the following to Section 41.2 (Specific Requirements):

§ 35-41.2.

.....

**o. Car washes in the H-C Zone.**

- 1. Car washes shall only be permitted as conditional uses on properties satisfying the following standards:**
  - (a) The property shall contain a minimum of 1.5 acres.**
  - (b) The property shall have frontage on at least two roads, with one of the roads being State Highway Route 22.**
  - (c) The property shall not be contiguous to or border any property containing a residential use or any property in a residential zone.**
  - (d) The property line containing a car wash shall not be located within 500 feet of the property line containing another car wash.**
  - (e) A maximum of one (1) car wash shall be permitted fronting on the eastbound lanes of State Highway Route 22, and a maximum of one (1) car wash shall be permitted fronting on the westbound lanes of State Highway Route 22. A car wash shall be prohibited within the center island properties along State Highway Route 22.**
  - (f) All ingress and egress driveways for car washes shall be limited to State Highway 22.**
  - (g) Minimum vehicle stacking capacity. Car washes shall have a minimum of two (2) queuing lanes with a stacking capacity of at least ten (10) vehicles per queuing lane before the vehicle enters the car wash structure. Each required stacking space shall measure a minimum of nine (9) feet by eighteen (18) feet. Stacking of vehicles shall not be permitted in the public right-of-way or any area designated as a driveway or fire access lane.**
  - (h) Except as otherwise set forth in this paragraph 4, all operations, including but not limited to washing, waxing, vacuuming, and drying, shall be conducted within the car wash structure. The queuing of vehicles may take place outside the said structure, but only within the confines of the property.**

Manual drying and vacuuming may take place in the exit driveway from the structure and/or the assigned vacuum area, but shall only be permitted within the confines of the property.

- (i) No application shall be favorably acted upon by the Land Use Boards of the Township until it is first determined that the proposed car wash can be conducted at the proposed site without causing undue traffic congestion or affecting the flow of traffic on the public streets adjacent to the proposed use in a deleterious manner.
- (j) Parking spaces. A minimum of three (3) parking spaces or one (1) parking space for each employee on a maximum shift, whichever is greater, is required.
- (k) All discharge of water used in the washing of vehicles shall be to the sanitary sewer system and not into any storm sewer or detention system. The proposed connection to the sanitary sewer system shall be submitted to and approved by the Township Engineer.
- (l) Soap and other related cleaning and treatment products used at the car wash shall be biodegradable and/or properly disposed of as hazardous waste.
- (m) No outdoor storage of equipment or materials shall be permitted.
- (n) The dispensing or storage of gasoline or other motor vehicle fuels, the service or repair of motor vehicles, the sales and rentals of motor vehicles, and the overnight parking of tractors, trailers or trucks shall be prohibited.
- (o) The washing of vehicles other than passenger vehicles shall be prohibited.
- (p) A self-service car wash shall be prohibited.

.....

**SECTION IV – RATIFICATION**

Except as expressly modified herein, all other provisions and terms of the Code of the Township of Springfield shall remain in full force and effect.

**SECTION V – SEVERABILITY**

In case any section, subsection, paragraph, subdivision, clause or provision of this ordinance shall be judged invalid by a court of competent jurisdiction, such order or judgment shall not affect or invalidate the remainder of any section, paragraph, subdivision, clause or provision of this ordinance and to this end, the provisions of each section, paragraph, subdivision, clause or provision of this ordinance are hereby declared to be severable.

Communication: Springfield Township - Pending Land Use Ordinance, public hearing on July 14, 2026 (Notices)

**SECTION VI – REPEAL**

This ordinance is not meant to repeal any provisions of the Code or any other ordinance other than those designated herein, and all ordinances or portions of ordinances which are inconsistent or in conflict with the provisions of this ordinance are repealed only to the extent of such inconsistency or conflict.

**SECTION VII - EFFECTIVE DATE**

This ordinance shall take effect immediately upon passage and publication according to law.

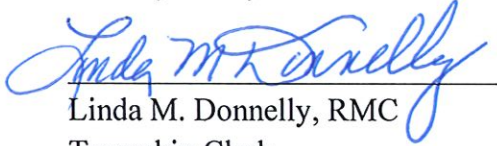

TOWNSHIP OF SPRINGFIELD

By:   
Harris Laufer, Mayor

Introduction:

June 23, 2026

I hereby certify that this is a true and correct copy.
